ATTAR MOHAMAD KAIF

Data Analyst | 8010460819 | attarmkmh@gmail.com |LinkedIn| GitHub

SUMMARY

Data Analyst with hands-on internship experience at Bluestock Fintech, turning raw, messy datasets into clean, decision-ready insights using SQL, Python, and Power BI. Skilled in data cleaning, exploratory data analysis (EDA), statistical analysis, and dashboard design that helps stakeholders act quickly on trends. Builds on a strong analytical and machine learning foundation to deliver deeper, forward-looking analysis rather than surface-level reporting.

KEY HIGHLIGHTS

- Delivered 3+ interactive Power BI dashboards during a fintech Data Analyst internship, tracking revenue growth, acquisition cost, and transaction volume
- Built a supply chain analytics suite in Power BI spanning supplier performance, inventory, shipment, and customer insights
- Achieved 94% model accuracy on a healthcare risk-prediction project through EDA, feature engineering, and algorithm benchmarking

TECHNICAL SKILLS

Data Analysis: SQL, Python (Pandas, NumPy), Excel, EDA, Data Cleaning, Feature Engineering, Statistical Analysis
Visualization & BI: Power BI, DAX, Data Modeling, Matplotlib, Seaborn, Dashboard Design, Reporting
Databases: MySQL, MongoDB, Oracle
Programming: Python, SQL, Java, HTML, CSS
Machine Learning: Regression, Classification, Clustering, Cross-Validation, Hyperparameter Tuning
Deep Learning & GenAI: TensorFlow, Keras, CNN, RNN, LSTM, LangChain, FAISS, LLMs, RAG, Prompt Engineering
Tools & Platforms: Flask, FastAPI, REST APIs, Git

EXPERIENCE

Data Analyst Intern, Bluestock Fintech *Apr 2026 - May 2026*

- Cleaned and prepared raw financial datasets, resolving missing values, duplicates, and inconsistencies to ensure data accuracy
- Wrote SQL queries to extract, filter, and aggregate financial transaction data, processing and validating thousands of records weekly
- Built and delivered 3+ interactive Power BI dashboards tracking customer acquisition costs, transaction volumes, and revenue growth
- Generated weekly and monthly KPI reports and collaborated with product managers and analysts to translate business requirements into insights
- Automated repetitive reporting tasks in Excel and Power BI, reducing turnaround time and freeing analysts to focus on deeper insights

Data & ML Analyst Intern (Self-Directed Project Work) *2025 - 2026*

- Cleaned, pre-processed, and explored real-world datasets end-to-end, identifying trends, outliers, and data quality issues before analysis
- Applied feature engineering and statistical techniques to strengthen the accuracy and reliability of analytical models
- Developed and evaluated machine learning and deep learning models for real-world data analysis use cases
- Built REST APIs using Fast API and Flask to integrate analytical outputs and model results into downstream applications

PROJECTS

Supply Chain Analytics Dashboard Suite (Samsung Sales & Logistics Data)
Power BI, DAX, Data Modeling

- Built a suite of interactive Power BI dashboards covering supplier performance, inventory & production, shipment analytics, and customer insights using Samsung sales and logistics data
- Benchmarked supplier lead times and quality scores across regions and vendors to support sourcing decisions
- Tracked inventory stock levels, defect rates, and reorder points to inform production planning
- Analyzed shipment delay patterns by carrier and root cause alongside monthly cost trends to flag operational bottlenecks
- Visualized customer revenue distribution across online, retail, and direct channels to surface channel-level growth opportunities

Cardiovascular Disease Risk Prediction
Python, Scikit-learn, Flask

- Performed EDA and feature engineering on patient health data to identify key predictive risk factors
- Benchmarked multiple algorithms (Logistic Regression, Random Forest) and selected the best-performing model at 94% accuracy
- Deployed the model via a Flask API to deliver real-time risk predictions from new data inputs

EDUCATION

B.Tech, Computer Science and Engineering *July 2022 - Aug 2026*
Dr. Babasaheb Ambedkar Technological University, Latur | CGPA: 8.5

Higher Secondary (HSC), Computer Science *July 2020 - March 2022*
Rajarshri Shahu Mahavidhyalaya, Latur | Percentage: 83%

Secondary School (SSC) *June 2019 - March 2020*
Kripa Sadan Convent High School, Latur | Percentage: 96.60%

CERTIFICATIONS

- Machine Learning – Kaggle
- Cybersecurity Intern - Cisco Networking Academy
- Complete Data Science, Machine Learning, DL, NLP Bootcamp - Udemy
