ABOUT ME

QAEngineer with3+years of experience in manual, automation, and API testing for web applications. Proficient in Selenium, Playwright, Java, and TestNG, with hands-on experience in designing, developing, and maintaining scalable automation frameworks. Skilled in leveraging AI-powered tools, Prompt Engineering, and Generative AI to enhance test case generation, create test data, and streamline defect analysis. Strong understanding of Agile methodologies, software testing life cycle (STLC), and delivering high-quality software through effective collaboration and continuous improvement.

SKILLS

- Selenium
- Java
- Web testing
- API testing
- Agile Methodology
- SDLC, STLC
- Bug Life Cycle
- Performance testing
- Eclipse, VS Code
- TestNG
- Smoke Test
- Regression testing
- BDD Cucumber
- SQL
- Jmeter
- DataBase Testing
- Postman
- Jenkins, CICD
- System Integration Testing
- Manual Testing
- SSMS,Mysql
- Maven
- User Acceptance Testing (UAT)
- DDF,POM

WORK EXPERIENCE

Infocowins software private limited | May 2024- Present

QA Automation Engineer

Project- Neo Payout

Domain - Payments & Banking

A secure payment payout platform enabling merchants to onboard, manage virtual accounts and wallets, and initiate domestic and international payouts. The system supports connected banking, automated fee calculation, transaction limits, approval workflows, and compliance controls.

- Automated end-to-end payout workflows including merchant onboarding, virtual account activation, wallet funding, and payout execution.
- Performed functional, regression, integration, API, and UI testing across application.
- Developed and maintained automation test scripts (Selenium, TestNG/JUnit).
- Validated financial accuracy by verifying wallet balance updates, bank debits, and service charge deductions through database-level testing.
- Tested and automated velocity rules such as maximum transaction amount, daily payout limits, and transaction count restrictions.

- Performed extensive negative and boundary testing for failure cases including insufficient balance, exceeded limits, invalid beneficiary details, and bank timeouts.
- Validated role-based access control, IP whitelisting, and approval workflows to ensure security and regulatory compliance.
- Collaborated with developers, business analysts, and product owners in Agile/Scrum.
- Logged and tracked defects using JIRA, ensuring timely fixes and retesting.
- Prepared test documentation (test cases, RTM, defect reports, release sign-off).
- Engaged in regular client meetings to provide updates on testing progress, discuss challenges, & align on expectation
- Utilized AI tools such as ChatGPT and GitHub Copilot for test case generation, test data preparation, and automation script optimization.

Novac Technology| January 2023 - April 2024

Software Trainee

- Roles and Responsibilities;
- Analyzed business requirements and designed test scenarios for Gold Loan modules
- including customer onboarding, loan application, gold valuation, loan approval, disbursement, repayment, and loan closure.
- Automated regression test cases using Selenium WebDriver, Java, and TestNG, improving test coverage and reducing manual testing effort.
- Performed API testing using Postman and REST Assured to validate loan creation, repayment transactions, interest calculations, and loan status updates.
- Executed SQL database testing to verify customer records, loan details, repayment history, outstanding balances, and interest calculations, ensuring data integrity.
- Reported and tracked defects using JIRA, collaborated with cross-functional Agile teams, and provided UAT support to ensure successful production releases.
- Executed functional, regression, integration, smoke, and sanity testing to ensure the stability and quality of the Gold Loan application.
- Reported, tracked, and verified defects using JIRA, collaborating closely with developers, Business Analysts, and Product Owners to ensure timely issue resolution.

EDUCATION

DBATU UNIVERSITY| 2019- 2022

- B.Tech (Computer Science) - GPA:8.2/10

MAHARASHTRA STATE BOARD| 2018- 2019

- 12th Science - 65%
- 10th Board - 93%
