AKSHAY ARUN ZUNJARKAR

Software Test Engineer

+91 7775852370 | akshay.zunjarkar97@gmail.com

4+ years of Experienced **Test Engineer** with a proven track record of designing, implementing, and executing automated test suites. Proficient in a variety of automation tools and frameworks. Skilled in test planning, defect tracking, and regression testing to ensure high-quality software releases.

PROFESSIONAL SUMMARY:

- Develop and maintain automated test scripts using **SeleniumWebDriver** and other automation tools for web applications.
- Experience in Data **Driven Framework**, **Hybrid Test Framework** and **Page Object Model** Design Pattern. Proficient in **Core JAVA** Programming.
- Good Experienced of various types of testing like **Automation Testing**, **Manual Testing**, **API Testing**, **Database Testing**, **Regression Testing.**
- Detecting **bugs** & classifying them based on **severity**, **priority**. Experience in writing **SQL** queries to validate data.
- Create and maintain test documentation including **test cases**, **test scripts,** and **test data**.
- Well versed with **SDLC**, **STLC**, Testing Concepts and Methodologies. Familiar and developed **JSON** based **REST Web** Services**.** Hands on experience with bug tracking tools such as **JIRA**.
- Participate in **Agile** ceremonies such as sprint planning, daily stand-ups, and retrospectives to align testing activities with project timelines.
- A results-driven, customer-focused, articulate and analytical Software Test Engineer who can think "Out of the box".
- Strong knowledge of SQL for **database testing**, including **joins**, and NULL handling.
- Used **Rest Assured** in project to validate the different **API responses**.
- Good Knowledge on using **BDD** Frameworks like **Cucumber**.
- Excellent experience of OOPs concepts, Collection Framework, Arrays and String Class in **JAVA**.
- Good understanding of build automation tool **Maven**, have a good understanding of **Data Driven** & **Hybrid Framework.**
- Experience in defining and designing the test cases for **manual and automation testing**.
- Used **Postman** & **SoapUI** for API.
- Hands-on experience with **joins**, **aggregate functions**, and constraints.
- Experience in deriving test **strategy**, **test plan**, **traceability matrix.**
- Proficient in writing **Test cases** by using test case design technique.
- Experience in **Agile** project **methodology** and test management.
- Excellent understanding in **Software Development Life Cycle**, **Software Testing Life Cycle** Technical Skills.

EXPERIENCE:

- **NP IT Solutions, Nashik|Software Test Engineer| January 2025 – Present**
- **Infosys Limited | Pune | Test Engineer| May 2022 – October 2024**

TECHNICAL SKILLS:

- Automation Testing Tools: Selenium WebDriver, TestNG, Maven, POM, TDD, BDD Cucumber.
- API: API using POSTMAN Tool, REST ASSURED.
- Languages: JAVA, SQL.
- Tools Skills: JIRA, GITHUB, Eclipse.
- Agile Scrum Methodologies.
- Strong Communication.

PROJECTS SUMMARY:

Domain: Beverage
Project Name: Dogfish Head Brewery Responsibilities:

- Creating The classes POM and Test as per the requirement of the framework. Involved in defect log, defect tracking and resolution.
- Managing the changes and executing regression tests. Verifying database schema as per given design document.
- Actively involved in Ad-Hoc, Functionality and integration testing. Responsible for Test Cases in an Agile environment.
- Responsible for gathering test execution data on a daily basis and sending mail to the Team. Checking data integrity and data correctness.
- Involved in Test Metrics preparation highlighting the number of test cases executed, and test coverage.

.

Domain: Insurance

Project Name: Auto and Home insurance Responsibilities:

- Performed automation testing by identifying and selecting the automation test cases Creating an automation test plan and getting approval.
- Configuring Selenium Test Environment in order to set it up. Automating the design of a framework.
- Involved in extensive backend testing using SQL queries to retrieve the data from the database and checked data integrity.
- Performed Smoke Testing, Functional Testing, Retesting and Regression Testing. Understand the FRS document and analyze the requirement.
- Participated End-to-End testing manually and was associated with User Acceptance Testing. Prepared Test Scenario, Test case design, and review it.
- Participated in client Interaction.
- Participate in scrum meeting to discuss about progress report every day.

EDUCATION:

B.E. from Sapkal College of Engineering Nashik.

PERSONAL INFORMATION:

- **Date Of Birth:** 18TH October, 1997**.**
- **Marital Status:** Single
- **Languages:** English, Hindi, Marathi**.**

DECLARATION:

I do hereby declare that all the information given above is true to the best of my knowledge and belief.

Place: Pune Name: Akshay Zunjarkar.
