BHAGYESH SEWALIKAR

Associate Test Engineer | 3+ Years Experience

+91 72183 69768 | bhagyesh.sewalikar329@gmail.com | linkedin | Ahmedabad, Gujarat, India

PROFESSIONAL SUMMARY

Associate Test Engineer with 3+ years of experience in manual and automation testing on large-scale social media and payments platforms in the Meta ecosystem. Works across a release mix of roughly 70% automation and 30% manual and API testing. Automates with Selenium WebDriver and Java using the Page Object Model, Cucumber BDD and TestNG, Validates APIs with Postman and uses AI tools in daily test case writing, scripting, and defect logging. Strong domain knowledge of payments - authorization, cards, UPI, and transaction lifecycle. Recognized with 2x Bravo Award at Tech Mahindra.

TECHNICAL SKILLS

Automation Testing: Selenium WebDriver, Page Object Model, Page Factory, Cucumber BDD, TestNG, JUnit

Languages & Frameworks : Java

API Testing: Postman

Testing Types: Functional, Regression, Smoke, Sanity, UAT, E2E, Integration, Accessibility

Test Design: BVA, Equivalence Partitioning, RTM, Test Case Writing,

Version Control & CI/CD: Git, GitHub, Jenkins, Maven

Test Management: QAVT, Meta Testing Tool

IDEs: IntelliJ IDEA, vsCode,Eclipse

Methodology : Agile/Scrum, SDLC, STLC, Defect Management

AI Tools : Claude, Claude Code, Metamate.

WORK EXPERIENCE

Associate Test Engineer — Oct 2023 - Present

Tech Mahindra, Ahmedabad | Client: Meta (Facebook, Instagram & WhatsApp)

- Tested Meta Pay and end to end across Facebook, Instagram, Ads Manager, and Meta Business Suite - UPI flows (P2P, P2M), card transactions, bank account linking, refunds, and payment status reconciliation on web, Android, and iOS.
- Wrote and maintained Selenium WebDriver automation in Java using the Page Object Model and Page Factory.
- Wrote Cucumber BDD feature files in Gherkin for payment and social modules, and ran parameterized suites with TestNG across staging, pre-prod, and production.
- Validated APIs using Postman - JSON/XML responses, status codes, headers, and auth workflows.
- Designed and executed 500+ manual test cases for Facebook modules including News Feed, Groups, Notifications, Marketplace, and Workplace.
- Maintained 1000+ test cases in QAVT with re-execution after every release, holding a zero regression escape rate across 25+ releases.
- Performed cross-browser and cross-platform testing on Chrome, Firefox, Safari, Android, iOS, macOS, Windows, and iPad.
- Used AI tools (Claude) in day-to-day work for test case writing, script generation, and defect logging, reviewing every output before use.
- Utilized Playwright MCP (Model Context Protocol) to assist with browser automation, UI interaction, and test execution.
- Logged and tracked defects in the internal Meta Testing Tool and prepared daily defect reports and release readiness summaries for client stakeholders.
- Mentored junior QA engineers on test case writing and defect reporting.

KEY PROJECTS

Meta Social Platforms - Automation and Manual Testing **Oct 2023 - Present**

Role: QA Automation | Tech Mahindra | Java, Selenium WebDriver, TestNG, Cucumber, Postman

- Automated Facebook and Instagram regression scenarios using Selenium WebDriver with Java, the Page Object Model, and Page Factory.
- Executed test suites covering card transactions, bank onboarding, payment failure and retry, and refund scenarios on web, Android, and iOS.
- Executed manual test suites for News Feed, Groups, Marketplace, Shops, Fundraising, and Workplace.
- Validated Meta Pay API flows via Postman - authorization, gateway routing, failure and retry, and refund scenarios.
- Achieved a zero regression escape rate across 25+ feature releases.
- Ran cross-browser checks and used Playwright test reports to attach evidence to defects.
- Maintained a zero critical-defect escape rate across 15+ Meta Pay releases.
- Wrote Cucumber BDD scenarios in Gherkin for meta social modules, improving automation coverage by 30%.

CERTIFICATIONS & AWARDS

- Software Testing (Q-Spider) | Intro to Generative AI | GitHub Copilot
- Bravo Award x2 - Technical ownership & rapid product ramp-up (Tech Mahindra)
- Kudos Award - Team management & training excellence
