DARSHANA SHIRKE

QA AUTOMATION ENGINEER | SELENIUM WITH JAVA | P&C INSURANCE DOMAIN | ACCESSIBILITY TESTING

Pune, Maharashtra, India | darshana.pawar2203@gmail.com | +91 9967789388 | linkedin.com/in/darshana-pawar-83b519234

PROFESSIONAL SUMMARY

QA Engineer with 4+ years of experience in Manual Testing, Selenium Automation Testing using Java, Accessibility Testing, and P&C (Property & Casualty) Insurance Domain applications. Experienced in testing Policy Management processes including policy issuance and policy servicing. Skilled in Selenium WebDriver, Java, TestNG, Maven, Page Object Model (POM), Postman, SQL, Jira, Jenkins, Git, and Agile Scrum. Strong knowledge of WCAG 2.1/2.2, ARIA, keyboard accessibility, JAWS, NVDA, VoiceOver, and TalkBack.

TECHNICAL SKILLS

Insurance Domain: P&C (Property & Casualty), Policy Management, Policy Issuance, Policy Servicing, Insurance Application Testing
Automation: Selenium WebDriver, Java, TestNG, Maven, POM, Hybrid Framework, XPath, CSS Selectors, JavaScriptExecutor
Manual Testing: Functional, Regression, Integration, System, Smoke, Sanity, End-to-End, Cross-Browser, Defect Life Cycle
API / Database: Postman, REST API, JSON, SQL, Database Validation
Accessibility: WCAG 2.1/2.2, ARIA, Keyboard Accessibility, JAWS, NVDA, VoiceOver, TalkBack, Color Contrast
Tools / CI: Jira, Git, Jenkins, Browser Developer Tools, TestNG Reports, Extent Reports
Methodology: Agile Scrum, SDLC, STLC
Browsers: Chrome, Firefox, Microsoft Edge

PROFESSIONAL EXPERIENCE

Transcom — Accessibility Auditor | *Mar 2026 – Jul 2026 | Pune*

- Performed manual accessibility testing of web applications based on WCAG 2.1/2.2 guidelines.
- Validated keyboard navigation, focus order, tab sequence, headings, forms, labels, alternative text, ARIA attributes, and color contrast.
- Tested web accessibility using NVDA and JAWS screen readers and logged defects in Jira with clear reproduction steps.
- Collaborated with developers and QA teams to resolve accessibility compliance issues and executed functional regression testing after fixes.
- Automated repetitive accessibility checks using Selenium WebDriver with Java, including heading structure, alt-text presence, and ARIA attributes.
- Built lightweight Selenium scripts to validate tab order and keyboard focus sequence; integrated axe-core scanning into Selenium/TestNG regression runs.
- Participated in Agile ceremonies including stand-ups, sprint planning, and defect review meetings.

Integra Software Services Pvt. Ltd. — QA Engineer | *Jan 2022 – Jan 2026 | Chennai / Remote*

- Developed and maintained Selenium WebDriver automation scripts using Java, TestNG, Maven, and Page Object Model (POM).
- Worked on P&C (Property & Casualty) Insurance Domain applications for 1 year, covering Policy Management, Policy Issuance, and Policy Servicing; validated end-to-end business workflows.
- Prepared and executed functional, regression, integration, system, and cross-browser test scenarios based on requirements and acceptance criteria.
- Automated regression test cases to reduce repetitive manual testing effort and improve test efficiency.
- Built reusable utilities and explicit/fluent wait strategies to handle dynamic web elements and reduce flaky test failures.
- Designed data-driven TestNG suites using @DataProvider and Excel/CSV inputs; created TestNG XML suites for grouping and parallel execution.
- Handled dynamic elements, pop-ups, iframes, and multiple windows using Selenium WebDriver, Java, and JavaScriptExecutor.
- Integrated Selenium suites with Jenkins for scheduled and CI-triggered regression runs; generated TestNG/Extent Reports.
- Used Git for version control; performed API testing using Postman and SQL database validation; tracked defects in Jira.
- Conducted accessibility testing using WCAG 2.1/2.2, JAWS, NVDA, VoiceOver, and TalkBack; validated keyboard navigation, ARIA, forms, headings, color contrast, and alternative text.
- Collaborated with cross-functional Agile teams through sprint planning, stand-ups, reviews, retrospectives, and defect triage.

KEY PROJECT — P&C INSURANCE POLICY MANAGEMENT APPLICATION

Role: QA Engineer – Manual & Automation Testing | Domain: P&C Insurance

- Tested Policy Management workflows with focus on policy issuance and policy servicing.
- Created and executed test cases from business requirements; performed end-to-end functional and regression testing.
- Automated selected regression scenarios using Selenium WebDriver, Java, TestNG, and POM.
- Validated application data using SQL and performed API validation using Postman where applicable.
- Logged, prioritized, and tracked defects in Jira and collaborated with developers and business teams through resolution.
- Performed cross-browser testing and accessibility validation using keyboard navigation and screen readers.

AUTOMATION FRAMEWORK PROJECT — WEB APPLICATION

- Developed automated test scripts using Selenium WebDriver with Java and designed a modular POM/TestNG framework.
- Automated 120+ regression test cases and created reusable methods for common browser and web-element operations.
- Implemented explicit waits and TestNG DataProvider for stable, data-driven test execution.
- Used Maven for build and dependency management, Jenkins for CI-based regression execution, and Git for version control.
- Generated TestNG/Extent Reports and shared execution results with stakeholders.

KEY ACHIEVEMENTS

- Reduced regression execution time by 40% through a modular Selenium-Java POM framework.
- Improved automation coverage by 50% through data-driven TestNG automation.
- Automated repetitive accessibility validation using Selenium and axe-core.
- Reduced accessibility issues by 60% across three major web applications through comprehensive compliance audits.
- Improved WCAG testing accuracy by 40% through targeted accessibility training for cross-functional teams.

EDUCATION

- M.Sc. (Information Technology) — Mumbai University | 2014
- B.Sc. (Information Technology) — Mumbai University | 2012

CERTIFICATIONS

- Manual Testing Certification — Hyderabad
- Automation Testing (Selenium with Java) and API Testing (Postman) — QSpiders, Wakad, Pune
- Section 508 Awareness Certification
- Accessibility Testing Workshop — WCAG 2.1/2.2 and ARIA
