HIRADE ABHISHEK

Wagholi, Pune | +91 7620197644 | abhishekhirade44@gmail.com

SUMMARY

QA Engineer with **3+ years of hands-on experience** in **Manual and Automation Testing** for **Web and Mobile applications**. Proven expertise in **defect tracking and lifecycle management using JIRA**, ensuring timely resolution and high-quality releases. Strong experience in **API Testing using Postman**, validating request/response payloads, status codes, and backend data accuracy. Designed and developed a **Hybrid Automation Framework from scratch** using **Selenium WebDriver, Java, TestNG, Maven, and Jenkins** for efficient and scalable test execution. Skilled in identifying automation candidates, maintaining test suites, and debugging automation failures. Hands-on experience using **AI tools such as ChatGPT, GitHub Copilot, Gemini, and GenAI** to create test documentation, optimize test cases, and reduce manual testing efforts. Well-versed in **Agile/Scrum environments**, collaborating effectively with cross-functional teams to deliver reliable, high quality software.

WORK EXPERIENCE

Company Name - Smart Software Services Pvt Ltd — **July 2023 - Present**

1. Project Name - Equity Trading Platform Testing (OMS/EMS) — **Dec 2024 - Present**

Client - JPMorgan Chase.

Role: QA Engineer.

Description -

Worked on a real-time Equity Trading Platform supporting OMS and EMS for high-volume trade execution across exchanges. Performed functional, regression, and automation testing using Selenium WebDriver (Java) with TestNG. Validated end-to-end trade lifecycle, FIX protocol messaging, market data feeds, REST APIs, and database data using SQL. Integrated automation suites with Jenkins/Git CI/CD and ensured low-latency performance, data integrity, and regulatory compliance in an Agile/Scrum environment..

Roles and Responsibilities -

- Designed and executed test plans, test scenarios, and test cases for trading, risk management, and banking applications.
- Developed and maintained Selenium WebDriver automation frameworks using Java and TestNG.
- Implemented POM and data-driven frameworks for reusable and scalable test automation.
- Automated critical OMS, EMS, trade lifecycle, and financial reporting modules.
- Performed REST API testing and automation using Rest Assured and Postman.
- Integrated automation suites with Jenkins, Git, and CI/CD pipelines for continuous testing.
- Executed functional, regression, smoke, system, and cross-browser testing in Agile environments.
- Validated trade data, P&L, reconciliation, and financial transactions using SQL queries.
- Performed JMeter performance testing and validated real-time market data and trade workflows.
- Managed defects in JIRA and collaborated with developers, BAs, and POs to ensure quality delivery.

2. Project Name - MyMedsBox – Medication Reminder & Tracker **July 2023 – Dec 2024**

Client - MedPlus

Role - QA Engineer

Description -

End-to-end Tested app to track medicine schedules, reminders, dosage alerts, and refill notifications. Validated SMS/emails integration, e-prescription parsing, QR code scanning and elder-care support features.

Roles and Responsibilities –

- Based on FSD, prepare Test Plan, Test Scenarios, Test-cases and review.
- Performed Manual and Automation Testing for web and mobile applications.
- Executed Functional, Non-Functional, Regression, and Cross-Browser testing.
- Identified automation opportunities and automated suitable test scenarios to improve test efficiency.
- Executed test cases and suites, analyzed results, and debugged test execution failures.
- Performed API testing using Postman and validated request/response data.
- Logged, tracked, and managed defects throughout the defect lifecycle using JIRA.
- Perform API Testing using the POSTMAN tool.
- Leveraged ChatGPT, GitHub Copilot, Gemini, and GenAI tools to create testing documents and reduce manual efforts.

SKILLS

- Manual Testing
- Automation Testing
- API Testing
- Playwright
- Selenium
- Maven
- Java
- Accessibility Testing
- Pixel Perfect Testing
- Responsive Testing
- Performance Testing
- Agile Methodology
- Mobile App Testing
- (Android & IOS)
- POM, BDD, Cucumber
- OOPs Concepts
- Cross Browser Testing
- TestNG
- Jira
- SQL
- AI Testing
- Database Testing
- Python
- Appium
