SUMMARY

Results-driven **QA Engineer** with **3+ year's of experience** seeking to leverage expertise in test automation frameworks and tools to contribute effectively to a dynamic software development team.

SKILLS

Technical Skills	Core Java | Collection Framework | Selenium WebDriver | Hybrid Framework | TestNG | TDD | Maven | Page Object Model | Software Development Life Cycle (SDLC) | Manual Testing | Regression Testing | Integration Testing | Sanity Testing | User Acceptance Testing | Test Script Writing | Automation Testing | Functional Testing | Agile Project Management | SQL
Software	Postman | MySQL | GitHub | Jira | Jenkins | Eclipse

WORK EXPERIENCE

QA Analyst — Apr 2025 - Present

Crystaltech Services Private Limited , Indore

- **Test Automation Development** – Designed, developed, and maintained automated test scripts using Selenium, TestNG, and Cucumber.
- **Framework Implementation** – Developed and enhanced hybrid automation frameworks (Page Object Model, Data Driven, and BDD).
- **Test Execution & Debugging** – Executed automated test cases, analysed failures, and debugged scripts for reliability.
- **Defect Reporting** – Logged and tracked defects using Jira, working closely with developers for resolution.
- **Agile & Scrum** – Hands-on involvement in day-to-day/ Sprint-by-Sprint /Release-by-Release on time product deliverables and planning.

Test Engineer — Jul 2023 - Jan 2024

CISB Services Pvt Ltd , Nagpur

- **Requirement Analysis** – Reviewed and analysed business requirements to create detailed test cases.
- **Test Case Design & Execution** – Designed, executed, and managed test cases for functional, regression, and system testing.
- **Defect Tracking & Reporting** – Identified, documented, and tracked defects using Jira tools.
- **UI Testing** – Verified application UI for responsiveness, alignment, and user-friendliness.
- **Cross-Browser & Compatibility Testing** – Ensured application functionality across different browsers and devices.
- **Agile & Scrum Participation** – Attended daily stand-ups, sprint planning, and collaborated with developers and stakeholders.

Software Engineer — Feb 2022 - May 2023

HCL Technologies Limited , Pune

- **Requirement Analysis** – Understand business and functional requirements to create test cases.
- **Test Case Execution** – Perform functional, regression, smoke, and exploratory testing.
- **Defect Tracking** – Identify, log, and track defects using Jira or similar tools.

PROJECTS

NxtWeb - Fintech Domain - Automation & Manual Testing **Apr 2025 - Present**

- Conducted comprehensive manual testing of application to identify defects and ensure compliance with quality standards.
- Implemented a scalable automation framework using Hybrid Framework(TestNG, POM, Keyword), reducing testing time and improving test coverage.
- Conducted simple SQL Queries to compare the data at the front end and back-end Collaborated with software developers and project stakeholders to analyse test results, implement effective solutions.

Vestiaire Collective - Ecommerce Domain - Automation **Jul 2023 - Jan 2024**

- Implemented a scalable automation framework using Hybrid Framework (Cucumber, POM, Keyword), reducing testing time and improving test coverage.
- Collaborated with software developers to integrate automation tests into the continuous integration/continuous deployment (CI/CD) pipeline, ensuring early detection of bugs and faster time to-market.
- Conducted regular code reviews and provided technical guidance to junior team members, fostering a culture of collaboration and continuous learning

AppSetup - Banking Domain - Automation **Feb 2022 - May 2023**

- Conducted comprehensive Manual Testing, to identify defects and ensure compliance with quality standards.
- Designed and maintained scalable and maintainable Automation Frameworks.
- Participated in regular project meetings to provide testing status updates, identify potential risks, and propose effective mitigation strategies in collaboration with cross-functional teams.

EDUCATION

Pune University: Imperial College of Engineering and Research **Jul 2018 - Aug 2021**

Computer Engineering
