Summary

Detail-oriented Manual QA Engineer with 2.5 years of experience testing web applications in Banking and E-commerce domains. Skilled in Functional, Regression, Smoke, and Sanity Testing, with strong knowledge of SDLC, STLC, Agile methodology, test case design, and defect tracking. Adept at collaborating with cross-functional teams to ensure high-quality software delivery.

Skills

- **Testing Type:** Manual Testing, Automated Testing, Functional Testing, Regression Testing, Integration Testing, Performance Testing, Load Testing, API Testing.
- **Bug Tracking & Management Tools:** JIRA, Bugzilla.
- **Programming Languages**: Java, JavaScript
- **Test Automation Tools:** Selenium, TestNG, JUnit.
- **API Testing Tools:** Postman
- **Database Management:** SQL, MongoDB.
- **Development Methodologies:** Agile (Scrum), DevOps, Waterfall.

Experience

QA Engineer | Crystaltech Services Private Limited | Pune
June 2023 – Present
• Analyzed business and functional requirements to create effective test scenarios and test cases.
• Executed Functional, Regression, Smoke, Sanity, and End-to-End testing across banking modules during sprint and release cycles.
• Identified, documented, and tracked defects in JIRA with appropriate severity, priority, and supporting evidence.
• Collaborated with developers and business analysts to resolve defects and validate fixes.
• Participated in Agile ceremonies, including daily stand-ups, sprint planning, and retrospectives.
• Prepared test execution reports and shared daily and sprint-level QA status updates.

Projects

• Web-Based Banking Application (Manual Testing Project)
QA Engineer | Apr 2024 – Present
Tech Stack: Banking Domain | Manual Testing (Functional, Regression, Smoke, Sanity, UI & End-to-End Testing) | API Testing (Postman) | SQL | JIRA | Agile (Scrum)
• Analyzed user stories and prepared test scenarios, test cases, and test data for banking modules.
• Performed Functional, Regression, Smoke, Sanity, UI, and End-to-End testing across multiple releases.
• Validated critical banking workflows, including Account Creation, KYC, Deposits, Withdrawals, and Transactions.
• Conducted API validation using Postman by verifying request and response data.
• Logged and tracked defects in JIRA with appropriate severity and priority.
• Participated in Agile ceremonies and prepared daily execution and sprint-level QA reports.

E-Commerce Web Application (Manual Testing Project)
QA Engineer | June 2023 – March 2024
Tech Stack: Banking Domain | E-Commerce Domain | Manual Testing (Functional, UI & End-to-End Testing) | Cross-Browser Testing (Chrome, Firefox) | JIRA | Agile (Scrum)
• Created and executed test cases for Product Listing, Filters, Cart, Checkout, and Order modules.
• Performed Functional, UI, and End-to-End testing across multiple releases.
• Validated complete user journeys, including Login, Product Search, Add to Cart, Payment, and Order History.
• Conducted Cross-Browser Testing on Chrome and Firefox to ensure UI consistency.
• Logged and tracked defects in JIRA with detailed reproduction steps and screenshots.
• Collaborated with developers to verify fixes and support successful releases.

Education

BE CS | Savitribai Phule Pune University| Pune, India

Certification

I have completed a QA certification course from Think Quotient Pvt Ltd. Pune.
