Technical Consultant | Dynamics 365 Business Central
Microsoft Certified: Dynamics 365 Business Central Developer Associate (MB-820)

PROFESSIONAL SUMMARY

Technical Developer with over 2 years of experience in Microsoft Dynamics 365 Business Central.

- Skilled in AL development, Business Central Customizations, RDLC reports,Excel Reports, and SQL. Hands-on experience working on both SaaS and On-Prem environments, including deployment and troubleshooting.
- Key contributions include implementing a full-cycle ERP solution for a pharmaceutical manufacturing client, covering Finance, Manufacturing, EXIM, and Maintenance modules. Proficient in custom workflows, event-driven automation, and object migration from NAV to AL extensions. Strong debugging skills and a foundational understanding of API integrations.
- E-invoice integration, REST APIs, cloud storage (OneDrive, SharePoint, Azure Blob Storage .
- Proficient in using Git for version control and code safety.
- Known for team collaboration, mentoring junior developers, and promoting a positive, learning-oriented environment.

WORK EXPERIENCE

Associate Technical Developer : CocoonIT Services Pvt Ltd. Mumbai (Jan 2024 - Present)

- Developed and customized **AL extensions**, **RDLC/Excel reports**, and **XML Ports** across SaaS and On-Prem environments.
- Built and enhanced **REST APIs** to automate integrations and improve process efficiency.
- Worked on E-invoice, Email, and Cloud integrations (SharePoint, OneDrive, Azure Blob Storage) .
- Designed **custom approval workflows** and **event-driven automation** to streamline business processes.
- Mentored and guided **junior developers and interns** in AL development and debugging, fostering collaboration and knowledge sharing.
- Encouraged teamwork and supported peers in solving technical challenges, promoting a positive and efficient development culture.
- Supported **object migration** from NAV to AL-based extensions and handled SQL/API troubleshooting.

Trainee Business Central Developer : Stelmec Pvt Ltd, Mumbai (Aug 2023 – Jan 2024)

- Assisted in developing and customizing AL extensions for Business Central.
- Worked on basic RDLC report modifications and data migration tasks..
- Supported senior developers in troubleshooting, testing, and deployment processes.

Projects (Implementation)

Pharmaceutical and Manufacturing ERP — Dynamics 365 Business Central (On-Prem)

- Contributed to full-cycle ERP implementation focusing on **Maintenance**, **Exim** and **Finance** modules.
- Implemented **E-Invoice integration** for both **standard Sales Invoices** and **custom EXIM Sales Invoices**, covering **Posted and Unposted** documents, as per client requirements.
- Developed complex **EXIM module reports** and assisted in EXIM and Manufacturing modules under senior guidance.
- Built custom AL extensions including **Tables, Pages, Codeunits, Reports (RDLC)**, and Enums.
- Designed and implemented **custom approval workflows** and event-driven automation.

Media Services ERP Customization — Dynamics 365 Business Central (SaaS)

- Developed and enhanced **REST APIs** for seamless integration with external systems.
- Implemented **Email, OneDrive, and SharePoint integrations** for notifications and document management.
- Designed a three-step transactional flow (**Sales → Indent → Purchase**) with a custom Inventory Master structure.
- Built AL-based solutions and report customizations to automate and streamline end-to-end business processes.
- Enhanced usability and document management, enabling collaboration across departments.

Claim Settlement Integration (Power Apps) — Dynamics 365 Business Central (SaaS)

- Developed a **custom Claim Settlement page** integrated with Power Apps via secured Azure App Registration (Client ID, Secret).
- Automated **Sales Invoice creation** with validation and duplication checks.
- Used **PATCH method** to update posting status in Power Apps after successful invoice posting.
- Delivered smooth end-to-end claim processing between Business Central and Power Platform with real-time updates.

Support and Integration Projects — Dynamics 365 Business Central (SaaS and On-Prem)

- Resolved technical queries and implemented custom APIs, XML Ports, RDLC/Excel reports across modules.
- Enabled ZIP download for multiple reports, improving operational efficiency by approximately 30%.
- Enhanced Email Integration with direct document links for faster access and reduced errors.
- Utilized SQL for data analysis, validation, and troubleshooting.
- Leveraged Git for version control and collaborative development.
