SAGAR ZIRMIRE

Automation Test Engineer

zirmiresagar@gmail.com | +91 7083321432 | Pune

Summary

Automation Test Engineer with 3+years of experience in manual and automation testing. Skilled in Selenium with Java, POM, TestNG, and Maven. Experienced in Functional, Smoke, Regression, and End-to-End testing in Agile/Scrum environments. API testing using Postman, Database testing using SQL, and defect tracking using Jira. Implemented Playwright, and Knowledge of Rest-Assured.

Professional Experience

Delfine India Technology, Pune *Jan 2023 – Present*

Project 1: RI Bridge- Government Citizen Service Platform

Worked on the RI Bridge project for the Rhode Island government to provide healthcare and insurance benefits to citizens. The system determines eligibility for programs such as SNAP, Medicaid, Medicare, CCAP, and QHP based on business rules and user data. The system automates approvals and payments for faster benefit delivery.

- Analyzed user stories and worked with Product Owners to create test scenarios in an Agile environment.
- Performed Manual Testing like smoke Testing, sanity Testing, Functional Testing and Non-Functional Testing.
- Performed Automation Testing using selenium with Java, POM and TestNG.
- Performed End to End Testing, Re-Testing, Regression Testing, and Cross Browser Testing to ensure the application stability.
- Prepared Test Scenario, Test case and Test Report.
- Performed API Testing using Postman to validate status code, Response body and Response time.
- Implementing Playwright with Typescript.
- Executed SQL queries to validate data in the database.
- Defect logging and collaborate with development team and Team lead.

Project 2: Rubix Platform – Accounts Payable (AP) System

The Rubix Platform is an enterprise-grade **Accounts Payable (AP) automation system** that streamlines the end-to-end invoice management process. It enables organizations to digitally capture, validate, approve, and process supplier invoices through configurable business workflows. The platform improves operational efficiency by reducing manual intervention, ensuring compliance with business rules, minimizing processing errors, and enabling timely vendor payments. It also provides real-time invoice tracking, approval management, and reporting capabilities to support financial operations.

- Performed Manual and Automation Testing for web-based Accounts Payable modules.
- Created and executed test cases and test scenarios based on requirements.
- Tested functionalities such as form validation, CRUD operations, and UI testing.
- Automated critical business workflows including invoice booking, invoice validation, invoice approval, and invoice search.
- Conducted Functional, Smoke, and Regression testing.
- Logged and tracked defects in Jira and coordinated with developers for issue resolution.
- Verified bug fixes and ensured the quality of the application before release.

SKILLS

- Manual Testing
- Agile Scrum
- Maven, TestNG, POM
- API Testing (Postman)
- Database Testing (SQL)
- Defect Management
- Cross Browser testing
- Selenium WebDriver with Java
- Playwright With JavaScript
- API Automation (Rest Assured)
- BDD Cucumber
- GitHub

TOOLS

- MySQL
- Postman
- Rest Assured
- Jira
- Selenium
- Postgres
- Git
- Playwright (JavaScript)
- Eclipse
- Cucumber
- VScode
- IntelliJ IDEA

EDUCATION

Swami Ramanand Teerth Marathwada University Nanded
Bachelor of Computer Science 2015-2018
CGPA: 7.7

Savitribai Phule Pune University
Master Of Art's 2018-2020

PERSONAL DETAILS

- Title: Automation Test Engineer
- Marital Status: Unmarried
- Gender: Male
- Language: English, Hindi, Marathi
