Sumedh Dhawale

Software Test Engineer

M: +91-9322823801
E:sumedhdhawale07@gmail.com
A: Nagpur, Maharashtra.

PROFESSIONAL SUMMARY

Software test engineer with **5.5+ years of experience**, including **3 years of hands-on automation** using **Python, Playwright, Selenium, Robot Framework, PyTest,** and **JMeter**, along with a strong foundation in **manual testing.**

Experienced in multi-client application environments, designing scalable automation frameworks (**POM, Hybrid, BDD**) and delivering reliable **UI & API test solutions**. Proven track record of **reducing defect leakage and manual effort**, improving test stability, and accelerating release cycles in **Agile environments**.

TECHNICAL SKILLS

- **Programming** : Python (3.X)
- **Automation Testing** : Selenium WebDriver, Playwright, PyTest, Robot Framework
- **Performance Testing** : JMeter (Load, Stress, Spike, Endurance, Volume Testing)
- **API Testing** : Postman, Requests Library
- **Framework** : Page Object Model (POM), Data-Driven, Hybrid, BDD Frameworks
- **Tools & Platforms** : Git, GitHub, Azure DevOps, TestRail, Jira
- **Database** : MySQL
- **Development Tools** : VS Code, PyCharm
- **Methodologies** : Agile (Scrum)

PROFESSIONAL EXPERIENCE

Quality Engineer

Excellon Software Pvt Ltd, Nagpur

June 2024 – Present

- **Designed and executed** automation and performance test strategies for enterprise applications.
- **Developed and maintained** automation scripts using **Selenium, Robot Framework, and Python**.
- Performed **API testing** using **Postman** and automated API validations using **Requests library**.
- Executed **performance tests** using **JMeter** and analysed **response time, throughput, and error rates**.
- **Identified performance bottlenecks** by correlating application and infrastructure logs.
- **Collaborated cross-functionally** with development and DevOps teams to ensure **high-quality releases**

Software Test Engineer

Vision Techno Services Pvt Ltd, Pune

Jan 2021 – June 2024

- Performed manual testing (functional, regression, sanity) for web and mobile applications.
- Designed and executed test cases, and managed defect tracking in Agile environment.
- Conducted UI and API testing to validate end-to-end workflows.
- Improved test coverage and supported release cycles through effective test planning.
- In later phase, contributed to **automation using Python, Selenium, and Robot Framework** for regression scenarios
- Gained exposure to **performance testing using JMeter** for load and stress testing.

PROJECT EXPERIENCE

Intelligent Dealership Management System (IDMS)

Client: ***Bajaj Auto Ltd.***

Roles and Responsibilities (Automation and framework contribution**):**

- **Built automation framework** using **Python, Selenium, and Robot Framework.**
- **Automated key workflows** (Sales, Inventory, Service) to improve **regression coverage.**
- Developed **UI + API automation (Requests)** for **end-to-end validation**.
- **Improved test stability** by fixing **flaky tests** and enhancing maintainability.
- **Reduced manual effort by ~50–60% through increased automation coverage**
- Executed **performance testing using JMeter** and analyzed **system metrics.**
- Identified performance bottlenecks (response time, throughput, error rates).

Dealership Management System (DMS)

Clients: Motodrive **[Desktop & Mobile (Apple & Android) Application]*, Grupo UMA, TVS, CLPL,***

Roles and Responsibilities:

- Worked on a **multi-client DMS product**, handling different configurations and workflows with **key contribution** to ***Motodrive, Grupo UMA, TVS Motor Company Ltd.***
- For MD & UMA **ownership of system stability**, improving stability by **~40% (Year 1)** and **~30% (Year 2)**
- **Reduced critical client escalations significantly through improved testing strategy**
- Provided production support, **resolving 20–30+ defects per sprint** and **improving system stability**
- Led **Change Request (CR) testing**, including feature implementation and integration validation
- Led **Year-End Activity (testing)**, ensuring **zero critical defects in financial workflows**
- Performed **regression and end-to-end testing**, reducing **defect leakage by ~25%**
- Conducted **deployment validation and post-release production monitoring**, reducing rollback risks
- Collaborated with **clients, BA, and FC during UAT**, reducing rework by **~25%**.

MATTER (New Implementation)

[Desktop & Mobile (Apple & Android) Application]

- **Led end-to-end testing from scratch, validating complete application workflows across desktop and mobile platforms (Android & iOS)**.
- **Designed and executed test scenarios** for new features and integrations, ensuring **cross-platform functional coverage** across **mobile (Android/iOS) and desktop applications**.
- Played a key role in **onboarding a new client**, supporting successful **Phase 1 and Phase 2 production rollouts**.
- Collaborated with **clients, BA, and FC teams** to understand requirements and ensure smooth implementation.
- Identified and tracked **critical defects early**, improving overall product stability before go-live.
- Provided **UAT support and production validation**, ensuring successful client sign-off.
- Contributed to **phased release strategy and deployment validation**, ensuring smooth go-live with minimal issues.

E-Commerce Domain

.Client: ***ASD Supermarts Ltd/***

- **Performed functional & sanity testing** across core modules **(registration, cart, checkout, orders).**
- **Designed and executed test cases**, ensuring **end-to-end workflow coverage.**
- **Validated order lifecycle** (placement, confirmation, tracking, refunds).
- **Verified inventory synchronization** and stock handling scenarios.
- Conducted **API testing (Postman)** and **performance testing (JMeter)**.
- **Managed defects in Jira**, ensuring timely resolution and retesting.
- Maintained **test cases and reports in TestRail** for traceability.
- Worked in **Agile environment**, collaborating with developers and stakeholders for **timely releases**

Education

Bachelor of Engineering (Electronics and Telecommunication), **Mumbai University.**
