CAREER SUMMARY

I am a passionate Java Full Stack Developer with 2+ years of experience specializing in both backend and frontend development. Proficient in Java, Spring Boot, Microservices, and React.js, I am skilled in building robust, scalable systems. My expertise includes developing REST APIs, optimizing service reliability, and improving system performance. Experienced in working within Agile environments, I focus on delivering high-quality code and achieving project success through continuous innovation and collaboration.

SKILLS

TECHNICAL

- **Languages & Markup**: Java | J2EE | React.js | HTML5 | CSS3 | SQL
- **Frameworks & Libraries**: Spring Boot | Spring Security | JPA | React.js (JSX)
- **Architecture & Concepts**: Microservices | RESTful APIs | OOP (Object-Oriented Programming) | Problem Solving | Assumptions Handling
- **Databases**: Azure Cosmos DB | Oracle DB | MySQL | Redis
- **Version Control**: Git | GitHub
- **Tools and IDEs**: IntelliJ IDEA | Eclipse | VS Code | Maven | JIRA | Jenkins | Tomcat | Dynatrace | Splunk | Kubernetes
- **Testing & Automation:** JUnit | Mockito | Cucumber (BDD).
- **Cloud Platforms**: OneOps, AWS(Amazon Web Services).
- **Operating system:** Windows | Unix/Linux
- Debugging | Unit Testing | Integration Testing | Job Monitoring | Shell Scripting.

WORK EXPERIENCE

SHEKRU LABS INDIA PVT LTD — Jun-2023- Present

1. Walmart | Sam's Club's (Client)

   Tech Stack: Java | Spring Boot | Microservices | Azure DB | Kubernetes | ATG | Oracle DB | Jenkins | Splunk | Dynatrace | Git

   - Contributed to migrating the legacy ATG-based e-commerce platform to a scalable Spring Boot Microservices architecture.
   - Built and maintained backend services for Walmart Sam’s and Bodega e-commerce modules, handling thousands of concurrent users.
   - Wrote unit tests using JUnit and Mockito, and implemented integration testing using Cucumber to ensure service reliability and code quality.
   - Monitored service health and resolved production issues using Splunk and Dynatrace.

2. School Website Development
   Tech Stack: Java | Spring Boot | React.js | HTML5/CSS3 | Azure Blob Storage | Azure Cosmos DB | Redis | MySQL | Git
   - Developed the entire school website end-to-end, including the frontend using React.js and the backend with Spring Boot.
   - Integrated Redis and Azure Cosmos DB for efficient database operations and used Azure Blob Storage for managing files (documents, images).
   - Built a responsive UI using React.js and advanced HTML/CSS, enhancing the user experience across all devices.
   - Performed end-to-end testing across the frontend and backend, resolving bugs to ensure a stable and responsive user experience.

3. Markal and JD Sports (Client)
   - Maintained backend services using Java Spring Boot and ATG architecture, supporting thousands of concurrent users.
   - Monitored jobs and resolved production issues using Splunk and Dynatrace to ensure system reliability and performance.

EDUCATION AND CERTIFICATION

B.Sc. in Computer Application | S.G.B. Amravati University 2022
Summer Research Programming, Amravati 2022
Java Full Stack Development, Pune 2023

COMUNICATION LANGUAGES

English Professional Proficiency
Marathi Native | Fluent
Hindi Fluent
