PROFESSIONAL SUMMARY

Business Development & Growth Operations professional with experience across SaaS, ERP, fintech, and software consulting environments. Skilled in consultative enterprise sales, CRM implementation, sales process optimization, and commercial workflow development. Experienced in driving GTM modernization initiatives, improving customer onboarding processes, and building structured sales operations for product and service-led organizations. Strong background in stakeholder management, proposal strategy, solution-based selling, and revenue-focused operational improvements.

EXPERIENCE

Business Development Manager | Andica Limited

SEPTEMBER 2025 – PRESENT

- Contributing to the modernization of sales and GTM operations for a UK-based fintech and accounting software company focused on cloud adoption and revenue process transformation.
- Played a key role in evaluating and finalizing CRM implementation strategy using Zoho CRM to support structured pipeline management, lead visibility, and customer engagement workflows.
- Designed and optimized sales workflows, lead qualification structures, and customer handling processes, contributing to improved operational efficiency and commercial visibility.
- Developed detailed ICP frameworks for multiple software products based on company size, customer requirements, operational workflows, and competitive positioning.
- Drafted outbound sales SOPs, campaign structures, and engagement workflows to support scalable outreach and commercial growth initiatives.
- Worked closely with leadership on GTM planning, CRM operations, sales enablement initiatives, and long-term commercial growth strategies.
- Collaborated with customer support and internal teams to improve customer onboarding workflows, customer journey consistency, and overall brand experience.
- Identified recurring customer feedback, product issues, and feature requests, helping improve communication between customers and product teams.
- Assisted in planning customer engagement and launch preparation activities for newly launched cloud products, including inquiry consolidation, database structuring, and customer segmentation initiatives.
- Contributed to chatbot implementation planning using Zoho SalesIQ, including customer routing logic, support workflows, and automated engagement planning.
- Supported campaign planning, outbound messaging, and marketing support initiatives aligned with cloud adoption and product growth objectives.
- Participated in discussions around website modernization, sales infrastructure improvements, and customer engagement optimization initiatives.
- Supported pre-event outreach, customer coordination, and lead preparation activities for Accountex London, assisting with prospect engagement and event support operations.
- Explored and evaluated modern sales intelligence and enrichment platforms such as Clay to support future GTM and outbound optimization initiatives.

New Acquisitions Manager | 8848 Digital

NOVEMBER 2024 – JUNE 2025

- Managed the end-to-end B2B sales lifecycle across ERP solutions, custom software development, and IT consulting services.

- Engaged directly with CXOs and business stakeholders to understand operational requirements and recommend solution-based approaches.
- Conducted consultative product demonstrations and solution walkthroughs focused on business value and ROI.
- Collaborated with pre-sales and delivery teams to develop proposals, commercial estimates, and transition strategies.
- Led commercial discussions, pricing negotiations, and proposal management for domestic and international clients.
- Maintained sales pipeline visibility, CRM processes, and forecasting activities to support revenue objectives.
- Assisted in optimizing CRM and sales enablement tools including LeadSquared, Apollo.io, and ZoomInfo for pipeline management and outreach operations.
- Worked with marketing and internal teams on targeted outreach initiatives and sales collateral preparation.

Business Development Manager | NestorBird

APRIL 2024 - NOVEMBER 2024

- Managed consultative sales engagements for ERP implementation projects across enterprise and institutional clients.
- Gathered business requirements and translated operational use cases into customized ERP demonstrations and solution presentations.
- Worked on tender applications and proposal submissions for government and private-sector ERP projects.
- Prepared commercial proposals, pricing estimates, and scope documentation aligned with project requirements.
- Coordinated with technical teams to ensure alignment between customer requirements and proposed solutions.

Business Development Manager | WebMobril Technologies

SEP 2022 - DEC 2023

- Managed branch-level sales operations with responsibility for revenue planning, forecasting, and business growth initiatives.
- Led and mentored sales team members through training, performance reviews, and process guidance.
- Conducted client discovery discussions and aligned software solutions with business objectives and operational requirements.
- Collaborated with technical stakeholders on proposal development, pricing discussions, and client presentations.
- Tracked sales performance metrics and contributed to process improvement initiatives for operational efficiency.
- Assisted in recruitment and onboarding of sales team members to support organizational growth.

Sr. BDE | Innovation India

JAN 2020 – AUGUST 2022

- Managed key client accounts and supported business growth through consultative upselling and cross-functional commercial coordination.
- Worked on SaaS and software solution opportunities across enterprise and staff augmentation engagements.
- Drafted proposals, SOWs, and commercial documentation aligned with customer objectives and delivery requirements.
- Conducted client meetings, requirement discussions, and account management activities for long-term relationship development.
- Collaborated with leadership on strategic account planning and commercial growth initiatives.

Inside Sales Executive | OneSolPro

JULY 2017 - DEC 2019

- Supported business development initiatives for Salesforce-related software services and outsourcing engagements.
- Conducted client communication, requirement discussions, and solution presentations for software development opportunities.
- Assisted in CRM activities, lead coordination, and sales support operations across digital service offerings.
