PROFESSIONAL SUMMARY

Senior QA Engineer / SDET with 6.5+ years across Travel & Hospitality, Banking, Microsoft Dynamics CRM 365, and Telecom (BSS) domains. Have led QA teams and owned end-to-end test strategy in Agile/Scrum environments, with hands-on automation in Selenium WebDriver (Java), REST API testing, and SQL. Comfortable working closely with Dev, Product, and Business teams on test planning and defect management from requirements through release.

CORE SKILLS

Testing Types: Manual Testing, Functional, Regression, Smoke, Sanity, UAT, Exploratory, Integration, Cross-browser Testing

Automation: Selenium WebDriver (Java), TestNG, Maven

Test Management: Test Plan, Test Strategy, Test Case Design, Bug Reporting, Traceability Matrix (RTM), Defect Lifecycle Management

Tools: JIRA, Azure DevOps

API & DB Testing: REST API Testing (Postman), Database Validation, SQL Server

Platforms: MS Dynamics CRM 365 (Field Service, Project Service), MS Power Automate, Master Data Management (MDM)

Methodologies: Agile / Scrum, STLC, SDLC, Requirement Analysis, Release Management

Domains: Microsoft Dynamics CRM, Travel & Hospitality (Cruise), Banking & Finance, Telecom / BSS

PROFESSIONAL EXPERIENCE

Associate Lead QA SDET | **AKIRHS Software Solutions** *Apr 2024 – Jul 2026*

Client: Royal Caribbean Group | Project Argonaut – Royal Experience | Cruise Booking & Guest Platform

- Promoted from Quality Engineer SDET to Associate Lead QA SDET in Apr 2026
- Served as overall QA lead for a critical cruise booking platform integration, delivering all milestones on time
- Directed QA coordination across pre-UAT activities, gap analysis, and phased test execution, reducing test cycle time by 20%
- Defined end-to-end test strategy covering functional, regression, integration, and smoke testing for web and mobile
- Served as Single Point of Contact (SPOC) for integration testing, driving alignment between Dev, Product, and Business stakeholders
- Owned QA for CRM and guest communication integration with the i-Travel platform via Master Data Management (MDM), ensuring data stayed accurate and consistent across guest-facing systems
- Owned test planning, test case design, defect lifecycle management, and RCA-driven closure across releases
- Delivered weekly QA status reports to senior leadership, enabling informed release decisions on progress, risk, and mitigation
- Mentored and onboarded QA team members, improving team productivity and test coverage quality
- Drove process improvements in test documentation, execution efficiency, and reporting standards

QA Consultant – MS Dynamics CRM 365 | **Hitachi Solutions India Pvt. Ltd.** *Apr 2022 – Apr 2024*

Tokyo Electron Limited (TEL) – MS Dynamics CRM 365 | Japan

- Independently managed end-to-end manual testing for CRM 365 Field Service and Project Service modules
- Designed and maintained 500+ test cases in Azure DevOps; executed across sanity, regression, smoke, and functional test cycles
- Engaged directly with Japanese client stakeholders to clarify and validate business requirements ahead of test design
- Facilitated knowledge transfer (KT) sessions; validated new CRM modules and critical business workflows
- Identified and documented bugs with accurate defect lifecycle tracking, achieving a 95%+ defect closure rate

Software Quality Analyst | **iNautix Technologies** *Nov 2019 – Apr 2022*

Goldman Sachs – Banking Domain | USA

- Designed test scenarios and test cases for core banking features; participated in peer reviews of test scripts
- Conducted Functional, Regression, Retesting, and Cross-browser UI testing across multiple release cycles
- Validated expected vs. actual database output via SQL queries; identified and proposed candidates for automation
- Extended a Selenium WebDriver (Java) automation framework by developing POM classes and test classes

T-Mobile – Real-Time Charging BSS | Telecom, USA

- Collaborated with the BA team to analyse business requirements and identify end-to-end test scenarios and data

- Executed Functional and Regression testing; performed SQL-based database output validation for charging modules
- Tracked and reported defects in Quality Centre (QC); prepared detailed transition documents for team handover

KEY ACHIEVEMENTS

- 3x winner of HSIN Gold Jewel Award at Hitachi Solutions India — for consistently exceeding quality and delivery benchmarks
- Best Project of the Year — recognized for outstanding QA delivery on the TEL CRM project
- Star Award (client-side recognition) at iNautix Technologies — nominated directly by Goldman Sachs stakeholders
- Pat on Back Award at iNautix Technologies — for exceptional contribution during critical project phases
- Dashing Debutant nominee at Annual Awards — Hitachi Solutions India
