SUMMARY

Finance & Accounts Professional with 4+ years of experience in Accounts Payable, P2P Operations, Invoice Processing, and Financial Reporting across global organizations. Skilled in SAP, Oracle ERP, accrual accounting, reconciliations, vendor management, and month-end activities. Proven track record of handling international clients, resolving complex financial queries, and maintaining high accuracy in financial operations. Currently pursuing an MBA in Finance with strong analytical, stakeholder management, and process improvement skills.

WORK EXPERIENCE

Ecolab India
Aug 2024 - Till now

Accounts Payable Specialist

- Manage high-volume end-to-end Accounts Payable operations, including vendor invoice processing, validation, coding, approvals, vendor onboarding, payment requests, down payments, and timely resolution of invoice and payment discrepancies.
- Process and validate invoices across U.S and multiple European regions, ensuring compliance with internal policies, accurate accounting treatment, proper documentation, and timely payment processing while consistently meeting SLA requirements.
- Perform corporate credit card and employee expense activities, including reviewing, coding, validating, and reconciling expense submissions, following up on missing receipts, and ensuring compliance with company expense policies.
- Process and reconcile daily banking transactions, including ACH payments, wire transfers, deposits, and other cash transactions, ensuring accurate General Ledger coding and timely resolution of reconciling items.
- Prepare monthly bank and account reconciliations, investigate variances, and resolve discrepancies to maintain accurate and reliable financial records across balance sheet and income statement accounts.
- Maintain fixed asset records, including asset additions, disposals, transfers, classification, and depreciation schedules; perform periodic reconciliations to ensure completeness, accuracy, and audit readiness.
- Perform accurate and timely financial data entry in ERP/accounting systems, maintaining proper transaction classification, supporting documentation, and high data integrity across the General Ledger.
- Prepare accrual reports, MEAR reports, RVA reports, R-Block files, accrual journal entries, and other month-end schedules to support financial reporting and month-end/year-end close activities.
- Manage prepaid expenses and monthly amortization entries, support reconciliation of assigned accounts, and ensure transactions are recorded in the correct accounting period in accordance with GAAP and internal controls.
- Drive process improvement and automation by using advanced Excel, Power Query, macros, BOT, IDOC Tool and SAP applications, and AI-based tools; develop SOPs, support system/process improvements, resolve client and vendor queries, and train new team members.

Ernest & Young
Dec 2023 - June 2024

Executive in TAX -Global compl. and reporting (GCR) Client : SAS Institute

- Managed Order-to-Cash (OTC) operations for multiple international markets including Netherlands, Germany, South Africa, Saudi Arabia, UAE (Dubai & Abu Dhabi), and Italy.
- Collaborated with country-specific stakeholders and SPOCs to ensure smooth transaction processing and timely issue resolution.
