- Strategy and Transformation: Digital Transformation | Process Optimization | GTM Strategy | Pricing Strategy| AI Adoption

WORK EXPERIENCE

Infosys Ltd | Pune, India | Jun 2022 – Present
Presales and Solutions Consultant ***(Microsoft Applications)***

- **Managed 200+ bids worth 500+MUSD** of end-to-end RFP/RFI/RFQ/RFS process across Fortune 500 companies in North America, EMEA and APAC region, collaborated with 15+ cross functional teams ensuring alignment of proposal response to client objectives
- **Boosted win rates by 28%** through strategic solution positioning, value-based selling, curated demos, and tailored responses with targeted GTM campaigns with industry-specific solutions that resonated with client needs
- **Led stakeholder engagement and pursuit strategy**, delivering executive level presentations, commercial modelling, while driving competitor analysis, pipeline management, win-loss reviews to sharpen positioning and enable upsell and cross-sell opportunities
- **Spearheaded design and execution of** Microsoft Product estimations tool in collaboration with stakeholders, streamlining workflows and reducing time to estimate by 35%, enhancing efficiency and productivity though usage of AI tools
- **Developed AI-driven use cases** that accelerated proposal turnaround time by 22%, contributing to sales effectiveness initiatives through the design and strategy of tools that enhanced deal management, improved efficiency, and reduced cost to serve.
- **Contributed to CFO-led strategic initiative Project Maximus**, focused on margin optimisation for the Infosys Microsoft Practice, directly supporting analysis and execution efforts that delivered a 20-bps margin improvement across the practice portfolio.

Appsmartz | Product Management Intern | May 2021 - Dec 2021

- **Designed 12+ detailed wireframes** and interactive high-fidelity prototypes for new product features using Figma, reducing design-to-development handoff time and miscommunication by 2 full revision cycles.
- **Ran structured A/B tests** across 4 key feature variants, systematically evaluating click-through rates, session depth, and early retention signals — top-performing variant improved overall feature adoption by an estimated 22% within the first release sprint.
- **Strategized and co-built a 6-month product roadmap** for GameSee in direct collaboration with the Founder and Co-Founder — synthesised 1,000+ user sessions, 8 competitor benchmarks, and sprint data to prioritise 12 features across platform

Graphite India Limited
Deputy Engineer – SAP Functional Consultant | Dec 2017 - Jul 2019

- **Conducted discovery workshops** with fit-gap analysis during SAP S/4 HANA digital transformation by mapping 50+ business process to across SAP PP, PM and MM modules reducing configuration rework by 35%
- **Optimised SAP MM** (procurement-to-pay, goods movement, vendor evaluation, inventory valuation) achieved 77% improvement in product efficiency and cut excess inventory holding costs by Rs. 45L annually
- **Recognised as the youngest certified internal auditor** across QMS (ISO 9001) and EMS (ISO 14001) — implemented QM inspection workflows (inspection plans, usage decisions) that supported 3 consecutive success audit cycles with zero major non-conformances.

AI and Innovation Initiatives

- **Developed AI assisted use cases** using Infosys Topaz Fabric and Microsoft Copilot to improve bid qualification by 20%
- **Orchestrated AI based reusable repository** platform to reduce the response document turnaround time and efforts by 30%

ACHIEVEMENTS

- **Recognized as Star of the Quarter** for four consecutive quarters (26%+ win ratio) and recipient of RISE and Insta Awards for outstanding contributions to sales effectiveness and win conversions
