Email: msohail.iqbal09@gmail.com
Mobile: +91 9172398258

Technical Skills

Languages: Java, C++, Python, JavaScript, HTML, CSS
Core Java: OOP, Collections Framework, Exception Handling, Multithreading, File Handling, Generics, Serialization, Java 8 Features
Frontend Technologies: HTML, CSS, JavaScript, React, Bootstrap, Tailwind CSS, JSP
Backend Technologies: Spring Framework, Spring Boot, Spring Security, REST APIs, JWT, JDBC, Servlets, Hibernate, JPA, Node.js (Basics), Express.js (Basics)
Databases: SQL, MySQL, MongoDB
Cloud & Deployment: Azure App Service (Basics), Azure Static Web Apps (Basics), AWS EC2 (Fundamentals)
Tools & Technologies: Git, GitHub, Maven, Postman, Apache Tomcat
Development Tools: IntelliJ IDEA, Eclipse, Spring Tool Suite (STS), VS Code, MySQL Workbench
CS Fundamentals: Data Structures and Algorithms, Problem Solving

Projects

AgriSync – Full Stack Agriculture Marketplace | *Java, Spring Boot, React.js, MySQL, JWT, WebSocket*

- Designed and developed a full-stack agriculture marketplace connecting farmers, buyers, and delivery partners through a secure, role-based platform.
- Built RESTful APIs using Spring Boot and Hibernate/JPA to manage products, orders, users, and business workflows with MySQL as the backend database.
- Implemented JWT-based authentication and Spring Security to provide secure login, role-based authorization, and protected API access.
- Developed a responsive React frontend with Redux Toolkit for state management and Tailwind CSS; integrated real-time communication using WebSocket.
- Followed a layered architecture (Controller-Service-Repository) with clean code practices, exception handling, and modular design for maintainability.

Library Management System | *Java, Object-Oriented Programming, Collections*

- Developed a console-based Library Management System using Java to manage book records and user transactions.
- Implemented core functionalities such as adding, issuing, returning books, and searching records using Java Collections (ArrayList and HashMap).
- Utilized Object-Oriented Programming concepts including classes, encapsulation, and modular design.

Certifications

Professional Certification | *The Kiran Academy* | Verify Credential — Jun 2026

Experience

The Kiran Academy — Pune, India
Software Developer Intern — *Dec 2025 – Jun 2026*

- Leveraged Core Java, OOP principles, and SQL database optimization to build, review, and debug application backend logic.
- Assisted in developing basic REST APIs using Spring Boot controllers and wrote SQL queries to perform efficient CRUD operations on relational databases.
- Validated database workflows and tested RESTful API endpoints using Postman to ensure secure, seamless data transfer.

Education

PCET's Nutan Maharashtra Institute of Engineering and Technology — Pune, India
Bachelor of Engineering (B.E.) (CGPA: 7.8) — *2019 – 2023*

Modern Junior College — Nigdi, Pune
Higher Secondary Certificate (HSC) Bifocal: Computer Science (Percentage: 68%) — *2017 – 2019*
