WORK EXPERIENCE

Proposal Manager at **Capgemini Technology Services India Ltd. | Pune, India | 1st September 2025 – Present**

Responsibilities:

- Lead end-to-end management of various Presales activities such as RFPs, RFQs, RFIs, ITTs, Proactive Proposals, Defense Orals and Workshop Presentations across multiple business lines and market units
- Perform comprehensive analysis of RFX documents to identify compliance requirements, risks and evaluation parameters; develop and execute detailed Work Segmentation Plan (WSP) with clear ownership and review governance.
- Drive cross-functional collaboration with sales leads / client partners, bid managers, solution leads / architects, commercial analysts, legal consultants and creative / design personnel to develop compelling, compliant and client-centric RFXs' responses.
- Own proposal review cycles (Pink, Red and Gold reviews) and approval workflows to ensure quality and strategic alignment prior to submission.
- Lead daily bid cadence calls, track proposal milestones, manage action logs, and ensure on-time, high-quality submissions within defined timelines.
- Coordinate with creative/design teams to develop visually compelling, brand-aligned response templates adhering strictly to client formatting and compliance instructions.
- Author and curate high-impact responses related to company credentials, capability narratives, and standard corporate sections leveraging internal knowledge repositories and share it ahead with the respective department heads for their review and feedback.
- Search for relevant case studies in the knowledge management portal and get them validated with the solution leads / architects for including them in the responses.
- Conduct thorough quality assurance, compliance validation, and final packaging reviews to eliminate disqualification risks related to formatting, page limits, and submission guidelines.
- Collaborate with the sales leads / client partner for ensuring a seamless and timely submission of the RFX opportunity.
- Update the SharePoint repository and the knowledge management portal with the submitted opportunity collaterals.
- Extract any reusable content from the submitted RFX responses for its reusability in the future bids as required.
- Update the standard Frequently Asked Questions (FAQs) documents w.r.t. company profile, finance, health & safety, environment & sustainability, insurance, security, legal, HR, etc. with the latest information available on the internal knowledge management portal.

Presales Executive at **Nitor Infotech Pvt. Ltd. (An Ascendion Company) | Pune, India | 08th April 2023 – 29th August 2025**

Responsibilities:

- Demonstrated hands-on experience in Presales activities such as Proposals, RFP, RFQ, RFI, Statement of Work (SOW) preparation & SOW renewals.
- Engaged in prospect / client calls to understand their business requirements.
- Identified all the relevant stakeholders amongst various Service Offering Heads / COEs, Engineering / Delivery Managers, Solution Architects, Business Analysts / Domain Experts / SMEs, etc. and facilitated a proposal or RFP response discussion call.
- Participated in discussion calls with all the respective stakeholders to discuss on the win probability and Go/No-go decisions by discussing it with them.
- Collaborated and follow-up with all the relevant stakeholders to assign / gather the required tasks / inputs and ensure proposal submission within deadlines.
- Approached engineering and delivery teams for timelines, resource loading options, rate card and pricing models amongst Fixed Price and Time & Material as per the opportunity requirements.
- Partnered with the engineering team, solution architects, etc. to author case studies and included them in various service offerings / capability presentations, proposals and other presales collaterals as required.

- Proactively revamped the service offerings / capability presentations and case studies for Product Engineering, Data Engineering, Cloud Engineering, Gen AI & AI/ML, Testing, DevOps, etc. by collaborating with the Service Offering Heads / COEs, Engineering Managers & Solution Architects.
- Partnered with various Business Analysts / Domain Experts / SMEs for updating & revamping domain expertise presentations across BFSI, Healthcare, Supply Chain, Retail, Manufacturing, etc. domains.
- Designed solution approaches, implementation methodologies, etc. to effectively communicate them to the prospects / clients.
- Conducted a thorough research on the prospects' / clients' industry, technology, competitors, press releases, events, awards, etc. and collaborate with the sales & marketing team to share any required presales collaterals with the new leads & prospects based on the research inputs.
- Implemented Salesforce CRM to record the won opportunities post SOW submission.
- Maintained an opportunity tracker to record any new and existing business opportunity with all the relevant details.
- Owned the task of updating all the presales collaterals in the SharePoint repository.
