PROFILE

Content Writer with 3+ years of experience in B2C retail e-commerce and B2B technology content, including over 2 years working on SEO-optimised product listings for major UK retail platforms. Skilled in creating SEO-driven copy across product descriptions, website content, blogs, and email campaigns while maintaining consistent brand voice. Experienced in proofreading, editing, and collaborating with cross-functional teams to deliver high-quality content and manage high-volume product catalogues under tight deadlines.

EXPERIENCE

Senior Executive Content Writer | Capita India | 2024 - Present

- Created SEO-optimised product titles, bullet points, and descriptions for major UK retail platforms, ensuring clarity, accuracy, and customer-focused messaging.
- Edited, proofread, and refined product content to align with brand guidelines, tone of voice, and platform requirements.
- Ensured readability, formatting, and SEO alignment across high-volume product listings.
- Managed SKU uploads, product pushes, and catalogue updates using Kube Marketplace.
- Maintained product attribute accuracy, including specifications, features, and descriptions.
- Performed category validation and taxonomy checks to ensure accurate product placement.
- Supported seasonal campaigns through high-volume SKU and content updates within tight timelines.
- Handled content amendments and urgent updates based on internal requests.
- Coordinated with internal admin and image teams to ensure accurate and complete product listings.
- Worked as part of the client-side product onboarding team, validating supplier data, performing quality checks and amendments, approving or rejecting submissions, and communicating feedback for corrections.
- Conducted live website checks to verify listings, formatting, and data accuracy.
- Consistently handled high-volume SKU delivery under tight deadlines while maintaining accuracy and content quality.

Content Writer | Biz4Solutions | 2023 -2024

- Created SEO-driven long-form and short-form content, including blogs, website pages, newsletters, and marketing copy, primarily focused on technical topics across industries such as healthcare, e-commerce, and emerging technologies for US-based audiences.
- Conducted in-depth research using multiple sources to ensure accuracy, credibility, and technical relevance.
- Implemented on-page SEO practices including keyword research, content optimisation, and structuring to improve search visibility and organic traffic.

- Supported off-page SEO efforts through guest posting and backlink-focused content (basic exposure).
- Developed press releases, email campaigns, and marketing content to support brand communication and lead generation.
- Wrote website and basic app content, including UI text and user-facing messaging.
- Developed and executed social media content across platforms including Facebook, Instagram, LinkedIn, Reddit, and Quora.
- Built brand visibility through community engagement by answering queries on platforms like Stack Overflow, Quora, and other developer forums.
- Created content aimed at attracting potential clients, particularly targeting US-based audiences.
- Supported lead generation through LinkedIn by identifying prospects and initiating outreach via InMail.
- Conducted prospect research and crafted personalised email outreach campaigns to generate business opportunities.
- Collaborated with website and digital marketing teams to support content delivery and campaign initiatives, with content developed and published under company bylines as part of organisational content initiatives.
