PRATIKSING SANJAYSING GIRASE

Full Stack Developer

Nashik, Maharashtra • +91-8767734352 • girasepratiksing@gmail.com • github.com/Pratik813335

PROFESSIONAL SUMMARY

Full Stack Developer with 9 months of professional experience and 3 months of internship experience, specializing in React.js for building responsive and scalable user interfaces, along with strong backend development in Node.js and LoopBack 4. Experienced in developing and integrating REST APIs, implementing secure JWT-based authentication, and working with relational databases such as MySQL and PostgreSQL in enterprise-level applications. Passionate about building efficient, maintainable, and user-centric web solutions.

TECHNICAL SKILLS

Frontend	React.js, Material UI (MUI), HTML5, CSS3, JavaScript
Backend	Node.js, LoopBack 4, Express.js
Database	MySQL, PostgreSQL, MongoDB
Tools & Concepts	REST APIs, JWT Authentication, Git, API Integration, React Flow
Deployment	Build Deployment, Hostinger, Frontend & Backend Deployment

PROFESSIONAL EXPERIENCE

Full Stack Developer *May 2025 – Present*

Velocrafts Technologies Pvt. Ltd., Nashik

Started as a React Intern and progressed to Full Stack Developer through continuous contribution to production-level applications.

- Developed responsive and scalable frontend modules using React.js and Material UI.
- Built and integrated backend APIs using Node.js and LoopBack 4 for enterprise applications.
- Worked on a finance and invoice discounting platform with multi-portal architecture (Issuer, Investor, Merchant, Trustee, Super Admin) involving complex transaction workflows.
- Contributed to authentication, authorization, business workflows, API integration, and database operations using PostgreSQL and MySQL.
- Participated in client meetings, gathered requirements, discussed workflows, and delivered business solutions.
- Developed workflow automation and job extraction systems using React Flow architecture and backend data processing.
- Managed full application deployment, including build generation and hosting of frontend/backend apps on Hostinger.

PROJECTS

Altiv AI | *MERN Stack — Node.js | LoopBack 4 | PostgreSQL*

- Worked on backend development for a job and career platform focused on intelligent job discovery and workflow management.
- Developed and integrated REST APIs, handled data processing, and contributed to scalable backend architecture.
- Collaborated with the team on enterprise-level features and system integration.

Job Extraction & Workflow Automation System | *MERN Stack — React Flow | Node.js*

- Built a workflow-based job extraction system using React Flow, with configurable nodes automating data extraction processes.
- Worked on scraping and processing job-related data from multiple websites and building backend APIs for workflow execution.
- Focused on scalable node architecture, data flow management, and backend integration.

Finance & Invoice Discounting Platform | *MERN Stack — React.js | Node.js | PostgreSQL*

- Contributed to development of finance web applications with invoice discounting workflows and enterprise data management.
- Worked on multi-portal architecture including Issuer, Investor, Merchant, Trustee, and Super Admin portals.
- Handled frontend and backend modules including API integration, authentication, business workflows, and database operations.

EDUCATION

MCA — Master of Computer Applications *2023 – 2025*
Dr. Moonje Institute, Nashik | CGPA: 7.85 / 10

BCS — Bachelor of Computer Science *2020 – 2023*
KVN Naik College, Nashik | CGPA: 8.38 / 10

ACHIEVEMENTS & CERTIFICATIONS

- National Level Certification in Cyber Security.
- Secured 3rd Rank in Master's First Year at Dr. Moonje Institute, Nashik.
