PROFESSIONAL SUMMARY

Python Full Stack Developer with 3+ years of experience building scalable fintech and travel-based web applications using FastAPI, Django, React, Angular, and Laravel. Experienced in designing secure backend APIs, developing responsive frontend interfaces, integrating third-party services, and delivering end-to-end full-stack solutions from architecture to deployment. Strong expertise in performance optimization, authentication systems, cloud deployment, and leading full product development lifecycles.

TECHNICAL SKILLS

- **Languages:** Python, PHP, JavaScript, SQL
- **Frontend:** React, Angular, HTML, CSS, AJAX
- **Backend:** FastAPI, Django, Flask, Laravel
- **Backend Expertise:** RESTful API Development, Microservices Architecture, OAuth & JWT Authentication, Django ORM
- **Databases:** MySQL, PostgreSQL, Firebase
- **Tools & Platforms:** Git, Postman, MySQL Workbench, AWS
- **Core Strengths:** API Design, System Optimization, Scalability, Secure Coding

---

PROFESSIONAL EXPERIENCE

Full Stack Developer & Team Lead | Payplex Solutions Pvt. Ltd. | Sep 2023 – Present | Pune

- Developed scalable fintech web applications using Python, FastAPI, and modern frontend technologies.
- Built and integrated RESTful APIs with responsive frontend modules for real-time transaction processing.
- Designed and developed responsive dashboards and frontend modules using React, Angular, HTML, CSS, and AJAX for business-critical workflows.
- Implemented secure authentication and authorization using OAuth, JWT, and role-based access control.
- Integrated third-party APIs including payment gateways, travel booking services, and financial systems.
- Optimized database queries and workflows, reducing API response latency by up to 30%
- Built robust backend architecture to handle concurrent API requests and high-volume transactions.
- Worked across the complete software development lifecycle from requirement analysis to deployment and maintenance.
- Managed deployment workflows with exposure to AWS cloud services and production release processes.
- Collaborated with cross-functional teams to deliver reliable and user-focused software solutions.
- Led a team of developers, ensuring code quality, technical guidance, and timely project delivery.

Software Developer Intern | TML Business Services Ltd. | Jul 2022 – Jan 2023 | Pune

- Developed backend modules using **Python (Flask)** for internal applications
- Improved database query performance, reducing data retrieval time
- Collaborated with cross-functional teams to deliver optimized solutions
- Recognized for strong contribution and performance during internship

KEY PROJECTS

End-to-End Fintech Transaction Platform (FastAPI + React/Frontend)

- Developed end-to-end fintech application for transaction processing and user account management.
- Implemented secure authentication using OAuth and role-based access control.
- Built scalable architecture supporting high concurrency and secure financial workflows.

Full Stack Travel Booking Platform (Django + Frontend Integration)

- Developed full-stack booking platform for bus, hotel, and flight reservations.
- Integrated third-party APIs for real-time pricing, availability, and booking management.
- Optimized system performance to improve search speed and booking efficiency.

B2B Fintech Platform (Laravel + Python APIs)

- Contributed to development of a **B2B platform from scratch**
- Designed backend APIs and ensured **secure transaction handling**
- Worked on frontend integration using AJAX for seamless user experience

---

EDUCATION

Bachelor of Technology (Computer Engineering)
G H Raisoni College of Engineering & Management
Jul 2019 – Jun 2023

ACHIEVEMENTS

- Awarded **Employee of the Month (2 times)** for outstanding performance
- Successfully delivered **multiple projects independently** **(end-to-end)**
- Recognized for backend optimization and API development excellence
