# Sayali Patil

Software Developer | Python, Django, REST APIs | Real-Time Industrial Applications

+91 98222 86903 sayalipatil7016@gmail.com LinkedIn Profile GitHub Profile

## Profile

Software Developer with 4+ years of experience in Python, Django, REST APIs, industrial monitoring systems, PLC data integration, and real-time data processing. Experienced in backend development, automation, reporting systems, and scalable web applications.

## Professional Experience

**Pat Kruger System Pvt. Ltd.,** *Software Developer* 11/2024 – present
Pune

- Developed Python-based automation and data processing solutions for industrial monitoring systems.
- Integrated PLC and telemetry data into real-time monitoring applications.
- Built REST APIs for communication between industrial systems and web applications.
- Processed CSV, Excel, JSON, and machine data for reporting and analytics.
- Troubleshot communication and data-processing issues to improve system reliability.

**AARS Designs Pvt. Ltd.,** *Web Developer* 05/2022 – 07/2024
Andheri, West

- Designed responsive WordPress websites aligned with client branding.
- Customized themes and extended plugin functionalities to improve user engagement.
- Reduced website bounce rates by 25% by improving UX/UI layouts.
- Managed project timelines and delivery within Agile teams.

## Projects

**Industrial Crane Monitoring System (PKS Live)** , *Technologies: PHP, JavaScript, HTML, CSS, Real-time Data Integration*

- Developed a real-time industrial crane monitoring and telemetry system using PHP, JavaScript, HTML, CSS, and MySQL.
- Integrated PLC and GPRS communication for remote monitoring and live data acquisition from crane systems across multiple client sites, including Indian Railways.
- Built dashboards for real-time visualization of machine parameters, operational activities, telemetry data, alarms, and fault logs.
- Implemented role-based access control, automated reporting, maintenance tracking, and data logging to improve operational efficiency and equipment reliability.

**PAT PIM – Product Information Management System** , *Technologies: Python, Django*
Contributed to the development of a Product Information Management system used to organize and manage product data efficiently. Worked on backend logic, data handling, and system improvements.

**PAT WebShop – E-commerce Platform** , *Technologies: WordPress, WooCommerce, PHP, MySQL*
Managed and maintained the company's online store (pat-webshop.com ), including product listings, updates, and performance optimization. Improved user experience and ensured smooth e-commerce operations.

## Skills

**Programming Languages**
Python, PHP, JavaScript, SQL

**Database**
MySQL

**Tools**
Git, GitHub, Postman, VS Code, cPanel

**Frameworks & APIs**
Django, REST APIs, FastAPI (Basic), Flask (Basic)

**Industrial / Real-Time Systems**
PLC Integration, Telemetry Systems, Real-Time Monitoring

**Data Processing**
Pandas, NumPy, CSV, Excel, JSON, XML File Processing

## Education

**B.E in Computer Science,** *Mumbai University* 2017 – 2021
