EXPERIENCE

Software Developer

Hydranautics Nitto Group-Mumbai (Deputed From CIEL HR)

February 2025 – Present

- Developed and optimized web applications using Django, implementing JWT authentication, Redis caching, and security best practices.
- Debugged and resolved critical issues, added new features, and collaborated with teams using Jira to ensure scalable and high-performance solutions.
- Designed and developed robust Django applications with seamless integration to frontend interfaces and third-party services, ensuring scalability and high performance.

Integrated Membrane Simulation & Design (IMSD) Program

Django, Django REST Framework | Redis, PyJWT, Sessions, Custom Middleware/Decorators | JavaScript, HTML5, CSS3

- **Description**: Developed a web-based simulation program for designing and analyzing membrane-based water filtration systems for industrial, municipal, sea well...etc use. The system enables users to input water parameters (TDS, anions, cations, pH, temperature, water type, membrane type, permeate flow, recovery rate) and calculates the required membrane passes, stages, recovery percentage, and water quality using NumPy and Pandas. Enhanced performance with Redis caching and ensured security with PyJWT authentication and session management.
- **Responsibilities**:
- Implemented PyJWT authentication and built a custom decorator for secure token validation and role-based access.
- Added and enhanced system functionalities to improve simulation workflows and user experience.
- Integrated Redis caching to optimize performance and reduce repeated calculation overhead.
- Debugged and resolved application errors, ensuring stable performance across modules.
- Deployed code on the test server and conducted verification before production rollout.
- Managed and resolved Jira issues, collaborating with the team for timely bug fixes and feature delivery.

Python and Django Developer

Globeminds Technologies Pvt Ltd, Pune

November 2022 – February 2025

- Developed and maintained web applications using Django framework, ensuring scalability and performance.
- Collaborated with cross-functional teams to analyze and translate business requirements into technical specifications.
- Implemented Restful APIs for seamless integration with front end applications and third-party services

EDUCATION

B.E in Mechanical Engineering

TPCT's College of Engineering Osmanabad, Maharashtra

2019

- Percentage : 75.07

Diploma in Mechanical Engineering

Government Polytechnic, Osmanabad, Maharashtra

2016

- Percentage : 67

Class X in SSC

Jayprakash Vidyalaya Ruibhar, Osmanabad,Maharashtra

2013

- Percentage : 80.60

SKILL

- **Languages** : Python, SQL
- **Frameworks and Libraries** : Django, Flask
- **Tools and Platforms** : Docker, Git, JIRA
- **APIs** : Django REST Framework (DRF)
- **Database** : MySQL, SQLite3,PostgreSQL,MSSQL,Redis
- **Front-end technologies**: React, HTML5, CSS3, Bootstrap, js
- **Version Control**: GitHub
- **OtherSkills** : Django Debug Toolbar, logging, Problem Solving, Code Optimization
- **Development tools**: IDLE, Jupyter Notebook, Sublime-Text, VS code

OptiCart Ecommerce

React.js, HTML5, CSS3, JavaScript, Bootstrap, Django, Django REST Framework, Django ORM, Docker, REST APIs, AJAX

- **Description**: Developed a full-featured e-commerce web application for eyewear products using React.js for the frontend and Django + Django REST Framework for the backend. The platform provides a modern, user-friendly interface for product browsing, virtual try-on functionality, cart and order management, and secure online payments. The application was containerized using Docker to ensure smooth deployment, scalability, and environment consistency across development and production.
- **Responsibilities**:
- Designed and implemented a scalable e-commerce platform for managing eyewear products and customer interactions
- Developed key features, including product catalog browsing, search functionality, and virtual try-on integration.
- Built a dynamic and responsive frontend using React.js, ensuring smooth user interactions and improved performance.
- Integrated a secure payment gateway (e.g. PayPal) for efficient order processing Built a dynamic, responsive frontend for an enhanced user experience.
- Utilized Docker to containerize the application, enabling consistent environments for development, testing, and production.

File Management System

html5, css3, javascript, bootstrap and django, django orm

- **Description**: Designed and developed a file management system to perform Create, Read, Update, and Delete (CRUD) operations on files. Integrated D-Tale to provide advanced data exploration and visualization capabilities, enhancing the system's analytical functionality.
- **Responsibilities**:
- Designed and implemented a file management system enabling Create, Read, Update, and Delete (CRUD) operations on files.
- Ensure that only the user who uploaded a file could delete it.
- Integrated D-Tale for dynamic data visualization and analysis of file-related data, ensuring seamless integration with the backend.
- Optimized database schema and queries to handle file data efficiently

Blog Management System

html5, css3, javascript, bootstrap and django, django orm, django rest framework

- **Description**: Developed a full-stack blog application enabling users to perform CRUD operations on blog posts and comments. Users can create, read, update, and delete blog posts, while ensuring role-based access control—only the post or comment owner can delete their content. The platform encourages user interaction through comments and promotes secure data management.
- **Responsibilities**:
- Designed and implemented the database schema to manage user,post, and comment data effectively.
- Developed RESTful APIs for CRUD operations with role-based access control.
- Ensured data validation, error handling, and optimal performance across the application.
- Implemented secure user authentication and authorization mechanisms.

DECLARATION

I declare that all the information mentioned herewith is true to the best of my knowledge

INTERNSHIP

Intern, Sagveek Technologies, Pune
- Jan 2022–Jun 2022

PERSONALDETAILS

- **Present address** :Hadapsar, Pune,Maharashtra
- **DateofBirth** : 25th Feb 1998
- **Hobbies** : Reading books, Dancing, Listening to music
- **Martial Status** : Married

LANGUAGES

- English
