PROFESSIONAL SUMMARY

Full-Stack Developer with 4 **years** of hands-on experience spanning full-time and contract roles. Proficient in **React Native**, **React.js**, **Next.js**, **Node.js**, **TypeScript**, and **Python**, with hands-on experience in building scalable web solutions and cloud-native applications. Skilled in integrating AI capabilities into applications and exploring the latest in machine learning technologies. Strong problem-solving mindset with a passion for clean architecture, performance optimization, and continuous learning.

PROFESSIONAL EXPERIENCE

Development Analyst | Metta Social, Pune

June 2024 - Present

- Currently developing a **React Native** app focused on **AI-powered networking**, designed to help users connect meaningfully across various platforms through **smart**, habit-forming daily **suggestions**.
- **Designed and implemented a powerful form-building** solution enabling Admins to create dynamic forms with customizable fields and metadata. Developed a **web-based dashboard** for managing form creation, assignments, and data submissions. Built a **mobile interface** using **React Native** for Coordinators to receive forms, submit responses, **search records**, and operate in **offline mode** with automatic sync. Included **post-submission actions** like confirmation messages and redirect flows to enhance user experience.
- Handled both frontend and backend for a Mobile application, using **React Native** for the interface and **Node.js**, **Express**, and **MongoDB** to build robust backend services and API endpoints.
- Built an **AI-powered** chatbot integrating **GitHub**, **ClickUp**, and **Google Drive** for unified, **context-aware** responses. Developed backend with **FastAPI**, **LangGraph**, and **ChromaDB**, and **frontend** using **Next.js** and **TypeScript**. Enabled **real-time** streaming UI, **code highlighting**, and **multi-source** query handling. Focused on scalable architecture, advanced reasoning, and enhanced user experience with progress indicators and feedback mechanisms.

- Worked on a **rewrite project**, modernizing and rebuilding the **frontend** from scratch with improved **UI/UX** and integrating backend APIs.
- **Deployed the frontend** application to **Vercel**, ensuring smooth production rollouts and continuous delivery.
- Integrated an **Unsplash image upload** feature to enhance **user experience** and streamline the **image selection workflow**. This improvement significantly **accelerated content creation**, reduced **manual upload steps**, and delivered a more **seamless** and **visually engaging interface** and **increased tester efficiency by 10%** during QA cycles by enabling quicker image-based test case validation.
- Worked in an **Agile Scrum environment**, participating in sprints, stand-ups, and regular planning sessions to drive iterative delivery.
- Worked on a **rewrite project**, modernizing and rebuilding the **frontend** from scratch with improved **UI/UX** and **integrating backend APIs.** Followed **Scrum methodology** to deliver iterative improvements with better maintainability and performance.
- **Utilized AI tools and automation workflows** (e.g., GitHub Copilot, ChatGPT, AI-powered linters and debuggers) to **accelerate development**, improve code quality, and reduce time spent on repetitive or boilerplate tasks.

Web Developer (Contract) | Metta Social, Pune

August 2023 - May 2024

- Completed intensive training in **automated end-to-end testing** using **Cypress**, boosting test coverage and reliability.
- Resolved **frontend UI** issues, enhancing user experience and improving accessibility across key user flows.
- Actively collaborated with **cross-functional** teams including developers, QA, and product managers through daily stand-ups and **sprint retrospectives**.
- Implemented reusable **UI components** using **React.js**, reducing code redundancy and accelerating development speed.
- Contributed to creating a more **robust QA** workflow, integrating automated testing into the **CI/CD pipeline**.
- Participated in code reviews and **knowledge-sharing** sessions, promoting best practices and fostering a culture of continuous improvement.

Web Developer (Contract) | Noustek Lab, Goa

June 2021 - January 2023

- Worked as a Web Developer for **1.5 years**, gaining hands-on experience with **React**, **Node.js**, **React Native**, and **Next.js** from a full project execution standpoint.
- Contributed to the development of a **socio-civic Progressive Web App (PWA)**—now live on the Play Store—serving real-world users in civic engagement initiatives.
- Owned and executed key parts of the **frontend development lifecycle**, focusing on pixel-perfect UI and responsive design across mobile and web platforms.
- Identified and resolved complex **UI/UX bugs** and performance issues, improving load times and user satisfaction scores.
- Integrated **RESTful APIs** and ensured seamless client-server communication using **Axios** and **Fetch**.
- Participated in sprint planning, estimations, and product demos, contributing to a collaborative **Agile development process**.

TECHNICAL EXPERTISE

- **Frontend:** JavaScript, TypeScript, React.js, Next.js, Bedux, HTML5, CSS3, Bootstrap, Tailwind.
- **Mobile:** React Native, PWA.
- **Backend:** Node.js, Express.js, PHP, Python, RESTful APIs, FastAPI.
- **Database:** MongoDB, MySQL, Supabase, Postgres.
- **Cloud:** Cloudinary (For image storage).
- **Testing:** Cypress.
- **Project Management:** ClickUp, Git.
- **AI Tools & Frameworks:** LangChain, LangGraph, OpenAI API, Vercel AI, GenAI, Ollama.

Education

- **Bachelor of Compuer Engineering (B.E)** | Goa University | 2021-2024
- **Diploma in Computer Engineering (DCSE)** | DTE Goa | 2018-2021
- **SSC** | CBSE Board | 2017
