Career Objective

QA Engineer with experience in mobile and web application testing, skilled in Appium mobile automation and Java Selenium web automation. Seeking a better opportunity to grow as an automation professional while contributing to high-quality, scalable products.

Experience

- **Vmedulife Software Pvt. Ltd.** 08/2024 - Present
  QA Engineer
  Working as a QA professional at Vmedulife, a product-based company in the educational domain, delivering solutions for academic institutions. Played a key role in testing the Academic Management System, ensuring reliable and user-friendly experiences for students, faculty, and administrators.

  - Automated Android mobile applications using Appium, covering key workflows like login, attendance, assignments, payments, etc.
  - Performed Web Automation Testing using Selenium WebDriver with Java for the multiple modules.
  - Built and executed TestNG-based regression suites, improving release stability and reducing manual efforts
  - Performed cross-device testing, compatibility testing, and validation on real Android devices.
  - Independently handled end-to-end QA activities including test planning, test case creation, execution, defect tracking, and automation maintenance.
  - Contributed to significant improvement in app stability, usability, and Play Store ratings through automation-driven quality assurance.

- **Profcyma Solution Pvt. Ltd.** 12/2023 - 08/2024
  Software Tester
  With 9 months of experience at Profcyma in Manual Testing of websites and mobile applications, I have worked on 15+ projects. I have hands-on experience in performing Functional Testing, Integration Testing, Re-Testing, Regression Testing, and UAT Testing.

Projects

- **Vmedulife Software/Mobile Application**
  - Automated and manually tested a large-scale educational platform with 18+ student modules, 18+ faculty modules, and parent modules.
  - Ensured functional accuracy, performance, and usability across Android devices and web browsers.

- **Biometric Attendance App (vmedulife)**
  Biometric attendance App is a attendance management system that uses face recognition technology to automate lecture-wise student attendance.
  Performed end-to-end testing including functional, regression, and usability testing to ensure accurate face detection, seamless student registration, and reliable attendance recording. Validated data integrity, system performance, and overall user experience.

- **Best property 24 (Profcyma)**
  Best Property 24 is a platform for buying, selling, or renting homes. I have tested all aspects of the website and mobile application for Best Property 24 and have written functional and responsive test cases during the testing process.

- **ShortUP (Profcyma)**
  ShortUP is a news app that provides news on the feed depends on your selected locations.
  I have written functional and responsive test cases for both the application and the admin panel during the testing process. In user acceptance testing, I provided a demo of both the application and the admin panel to the client.

- **Local Mandai (Profcyma)**
  Tested the Local Mandai website, a B2B and B2C e-commerce platform offering a wide range of consumer and business products. Conducted thorough testing on features such as product catalogs, ordering, customer reviews, and checkout processes. Ensured the platform's functionality, usability and enhancing the overall user experience for both individual consumers and business clients.

- **Social (Profcyma)**
  Social is application in which we can see post of people who are around 500 meter reading.
  I have written functional and responsive test cases for both the application and the admin panel during the testing process. In user acceptance testing, I provided a demo of both the application and the admin panel to the client.

Technical Skills

- **Automation Testing :**
  Selenium WebDriver | Appium (Mobile Automation) | TestNG | Cucumber BDD (Basic) | Playwright

  Programming Languages :
  Java | Core Java | C

  Testing Types :
  Manual Testing | Automation Testing | Regression Testing | Smoke Testing | UAT | API Testing

  Tools & CI/CD:
  Git | GitHub | Maven | Jenkins | Postman | Android Studio | Eclipse | MySQL

  Frameworks & Concepts :
  POM | Agile Scrum | SDLC | STLC | CI/CD Pipelines

Certification

- **Software Development Engineer in Testing (SDET)**
  Couse Details :- Learned from seed infotech – pune.
  Training included rigorous on modules described below
  - Manual testing - Selenium webdriver - BDD with Cucumber
  - Maven + Github + Jenkins - Agile Scrum .

Education

- **BCS** 2020
  Balbhim mahavidyalay,Beed
  64.30%

- **HSC** 2015
  R.B.Attal college, Georai
  69.23%

- **SSC** 2013
  Vimla Vidyalaya, Georai
  66.40%

Personal Details

- Date of Birth : 20/07/1997
- Marital Status : Single
- Gender : Male
- Full Name : Aditya Ashok Madkar

Languages

- English
- Hindi

- Marathi

Declaration

- I hereby declare that all the details provided above are true the best of my knowledge.
