Professional Summary

Software Quality Assurance Engineer with **3.7 years of experience** in **Manual a**nd **Automation Testing** of web applications. Experienced in **Selenium WebDriver** with **Java**, **Playwright** with **TypeScript**, API Testing using Postman, SQL Database Testing, and Agile Scrum methodology. Strong understanding of SDLC, STLC, defect lifecycle, and automation framework development. Skilled in Functional, Regression, Smoke, System Integration, and Database Testing with hands-on experience in Jira, Git, Jenkins, Maven, and TestNG.

Core Competencies

Manual Testing, Automation Testing, Selenium WebDriver, Playwright, Java, TypeScript, SQL, TestNG, BDD Cucumber, API Testing, Postman, Functional Testing, Regression Testing, Smoke Testing, Integration Testing, Database Testing, Agile Scrum, Jira, Git, Jenkins, Maven, Gradle, STLC, SDLC

Technical Skills

- **Programming Languages:** Java, TypeScript, SQL
- **Automation Tools:** Selenium WebDriver, Playwright
- **Testing Frameworks:** TestNG, BDD Cucumber
- **API Testing:** Postman
- **Build Tools:** Maven, Gradle
- **CI/CD:** Jenkins
- **Version Control:** Git
- **Defect Management:** Jira
- **IDEs:** Eclipse, IntelliJ IDE, Visual Studio Code
- **Database:** SQL Server
- **Operating Systems:** Windows

Professional Experience

QA Engineer
SS&C Technologies, Pune
January 2023 – Present

Roles & Responsibilities:

- Analyzed Business Requirement Documents (BRD), Functional Requirement Documents (FRD), and Design Documents.
- Prepared Test Scenarios, Test Cases, Test Data, and Test Summary Reports.
- Performed Functional, Smoke, System, Regression, Retesting, and Database Testing.
- Developed and executed Automation Test Scripts using Selenium WebDriver with Java and TestNG.
- Developed automation scripts using Playwright with TypeScript.
- Created reusable automation methods to improve script maintainability.
- Performed API Testing using Postman.
- Executed SQL queries for backend database validation.
- Identified automation candidates for regression testing.
- Logged, tracked, and verified defects using Jira.
- Worked closely with Developers, Business Analysts, and Product Owners during Agile sprints.
- Participated in Sprint Planning, Daily Stand-ups, Sprint Reviews, and Retrospectives.
- Generated Test Execution Reports and communicated project status to stakeholders.
- Supported release validation activities to ensure quality software delivery.

Project Experience

Banking Web Portal (BlueDoor)
Domain: Banking / Wealth Management

Project Description:
BlueDoor is a cloud-based registry platform designed for wealth management, retirement, and superannuation providers. The platform streamlines digital operations by automating business processes and replacing legacy systems for improved efficiency and customer experience.
Environment:
Java, Selenium WebDriver, Playwright, TestNG, SQL, Jira, Git, Jenkins, Postman, Agile Scrum
Responsibilities:

- Requirement Analysis
- Test Scenario Preparation
- Test Case Design
- Test Execution
- Functional Testing
- Regression Testing
- Smoke Testing
- Retesting
- API Testing
- Database Validation
- Defect Reporting
- Automation Script Development
- Test Summary Report Preparation

Education

Bachelor of Computer Science
Dr. Babasaheb Ambedkar Marathwada University
Aurangabad, Maharashtra

Professional Strengths

- Strong analytical and problem-solving skills
- Good understanding of Software Development Life Cycle (SDLC)
- Excellent understanding of Software Testing Life Cycle (STLC)
- Experience working in Agile Scrum methodology
- Effective communication and collaboration skills
- Quick learner with strong adaptability
- Ability to work independently as well as within cross-functional teams
