Professional Experience

Sonata Software

Microsoft Dynamics 365 F&O Technical Consultant / Technical Support Engineer

🗓️ September 2022 – Present

Role 1: D365 F&O Technical Support Engineer – Microsoft Support Project (April 2024 – Present)

- Working as a dedicated Technical Support Engineer for Microsoft’s D365 Finance & Operations support project

- Handling live customer issues, performing root cause analysis, and providing resolutions or workarounds
- Specialized in resolving installation failures, data sync errors, Dual Write issues, and environment-specific bugs
- Coordinating with Microsoft Product Group for escalations and bug tracking
- Providing documentation, knowledge base updates, and technical clarity to global customers

Role 2 D365 Developer - TMS_RMOG_USCanada_CTRM_Rollout_SSNA Implementation Project(June 2023 – April 2024)

- Customized standard tables and forms as per client requirements and created batch jobs for automation.
- Handled BP fixes, developed SSRS reports, and worked on data entities.
- Created number sequences and built Power BI reports.
- Completed training in Power BI for data visualization and reporting.

Role 3 Associate D365 Technical engineer - DOMINOS_AX2012_SUP_SEL Support Project (Feb 2023 -June 2024)

- In AX 2012, handled tables, forms, classes, menu items, list pages, users, roles, duties, privileges, and jobs.
- Assisted in running and monitoring batch jobs through AX 2012 and Visual Studio.
- Used breakpoints and debugged code to resolve functional and technical issues.
- Offered end-to-end support for AX 2012 environments, ensuring smooth system operations.
