KOMAL GAIKWAD

Pune | **+919022858735** | gaikwadkomal0711@gmail.com | Linked Profile |

QA Engineer with 3 years of experience in Manual Testing, Automation Testing, API Testing, and Database Testing. Proficient in Selenium WebDriver (Java), TestNG, Maven, Postman, SQL, JIRA, Azure DevOps, and Jenkins. Experienced in developing automation scripts, executing end-to-end testing, defect lifecycle management, and working in Agile/Scrum environments to deliver high-quality enterprise applications. Strong analytical, debugging, and problem-solving skills.

TECHNICAL SKILLS

- **Testing**: Manual Testing, Automation Testing, Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Integration Testing, System Testing, UI Testing, API Testing (Postman, Rest Assured), Database Testing (SQL), Performance Testing (JMeter), User Acceptance Testing (UAT)
- **Automation Frameworks**: Selenium WebDriver (Java), TestNG, Page Object Model (POM), Data-Driven Framework (DDT), Cucumber (BDD), Selenium Grid, Cypress, Playwright
- **Programming & Scripting Languages** : Java, SQL, JavaScript
- **Web Technologies**: HTML, CSS
- **Tools**: Eclipse, VS Code, Git, GitHub, Maven, Jenkins, Postman, JIRA, Azure DevOps (ADO)
- **Cloud Services**: AWS Lambda, Amazon CloudWatch
- **Methodologies** : Agile Scrum, SDLC, STLC
- **Soft Skills**: Problem Solving, Team Collaboration, Communication, Adaptability

PROFESSIONAL EXPERIENCE

Senior QA Engineer (Contract)
Computacenter (Client: Deloitte USI), Pune **Mar 2026 – Jul 2026**

- Performed end-to-end **User Acceptance Testing (UAT)** for enterprise web applications.
- Designed and executed test cases based on business requirements.
- Collaborated with Developers, Business Analysts, and Product Owners.
- Logged, tracked and managed defects using Azure DevOps.
- Participated in Agile ceremonies, including Sprint Planning, Daily Stand-ups, and Retrospectives.
- Prepared test execution reports and supported release activities.

Software Automation Testing Intern, Star Agile. Pvt. Ltd. Bangalore **Jun 2025 – Nov 2025**

- Developed UI and API automation scripts using Core Java, Selenium WebDriver, Cypress, and Rest Assured.
- Executed end-to-end testing for web applications using Selenium and Cypress.
- Worked with TestNG, Cucumber (BDD), Data-Driven Testing (DDT), and Cypress fixtures/custom commands.
- Performed cross-browser and cross-environment testing to ensure application stability.
- Worked on CI/CD execution using Jenkins, with project build and dependency management using Maven.
- Used Git and GitHub for version control and automation framework maintenance.

Software QA Engineer – Sidhyati Technology Pvt. Ltd **Feb 2023 – May 2025**

- Hands-on experience in Manual Testing, Functional Testing, Database Testing, and Automation Testing using **Selenium WebDriver with Java**
- Proficient in **Test Case Design**, **Execution**, and **Defect Lifecycle Management** using **JIRA**.
- Automated **100+ regression test cases**, reducing manual effort by **35%**.
- Experienced in **API Testing** using **Postman** and validating data through **SQL queries**.
- Built and maintained **Test Automation Frameworks** using **TestNG, Maven**, and **Page Object Model (POM)**.
- Exposure to **Performance Testing** using **JMeter** and monitoring with **AWS CloudWatch**.
- Well-versed in **SDLC, STLC, and Agile/Scrum methodologies** with active involvement in **daily stand-ups**, **sprint planning**, and **retrospectives.**
- Participated in the creation of **Requirement Traceability Matrix (RTM)**, ensuring complete test coverage.
- Utilized **Dynamic XPath, IFrames, and WebDriver waits (Implicit, Explicit, and Fluent) to automate web application testing**.
- Collaborated with developers and business analysts to resolve defects and ensure timely delivery of quality releases
- Version control using **Git/GitHub**, and **Extent Reports** for test result visualization.
- Performed **Cross-Browser Testing** using **Selenium Grid** (Chrome, Firefox, Edge).

PROJECTS

1) **Queue Management System (QMS) |Team Size:** 11
   Role: Software QA Engineer
   Tools & Technologies: Selenium WebDriver (Java), TestNG, Postman, SQL, JIRA, Maven
   Description:
   A web-based Queue Management System developed for government organizations to manage appointments, walk-in customers, service counters, dashboards, reports, and queue operations.

2) **Web Express – SMS Broadcasting Platform | Team Size: 6**
   Role: Software QA Engineer
   Tools & Technologies: Selenium WebDriver (Java), Postman, SQL, JIRA
   Description:
   A web-based SMS broadcasting platform used to send bulk messages to multiple users through predefined templates. The application supports message management, user workflows, and SMS delivery operations.

3) **Global Advantage (Tax Domain) | Client:** Deloitte
   Role: Senior QA Engineer (Contract)
   Tools & Technologies: Azure DevOps, SQL, Postman, Agile
   Description:
   An enterprise tax workflow management application used to manage tax-related business processes, workflow approvals, and business operations. The application helps users manage and track tax workflows across different modules.

CERTIFICATION

Automation Testing Engineer Certificate

- Completed a comprehensive Automation Testing Engineer course covering Manual Testing, Selenium, TestNG, Cucumber, Rest Assured, Postman, Cypress, and Playwright using Java and JavaScript.
- Gained hands-on experience through real-time projects with CI/CD integration using Docker, Jenkins, Git, and Maven.

Java Fundamentals – IBM

- Covered core Java concepts, object-oriented programming (OOP) principles, and programming structures.
- Completed practical exercises to strengthen foundational Java skills**.**

SQL and Relational Database - IBM

- Mastered SQL basics, including queries, JOINs, and data manipulation.
- Practical experience with relational database systems.

Education

- Bachelor of Science, Savitribai Phule Pune University — **2021 | First Class | 84%**
- HSC — **2018 | 70%**
- SSC — **2016 | 90%**
