Experience

Software Development Engineer April 2024 – Present
Jio Platforms Limited *Gurugram*

- Built and optimized **React.js** application using **Redux Toolkit, Context API,** and **React Router,** improving state efficiency and navigation across **10+** dynamic pages.
- Enhanced user experience and performance by implementing **lazy loading, code splitting,** and **bundle optimization**, improving **Core Web Vitals** by **45%**.
- Developed responsive, accessible UIs with **Tailwind CSS**, streamlining component styling and reducing UI development time by **40%**.
- Integrated **RESTful APIs** and optimized data fetching using **Axios**, reducing API latency and improving overall page performance.
- Wrote and maintained unit and integration tests using **Jest** and **React Testing Library**, achieving **80%+ test coverage** and improving deployment reliability through **CI/CD pipelines** on **GitHub Actions**.
- Refactored **JavaScript** codebase to **ES6+** standards for maintainability, enforced clean Git workflows, and conducted peer reviews to uphold code quality standards.
- Collaborated in cross-functional **Agile/Scrum** teams, contributing to sprint planning, retrospectives, and feature delivery, enhancing sprint velocity by **20%**.

Graduate Engineering Trainee Dec 2023 – April 2024
Jio Platforms Limited *Navi Mumbai*

- Migrated legacy codebase from **React 16 to React 18**, ensuring full compatibility and zero downtime during deployment.
- Modernized existing components with **React Hooks**, reducing complexity and enhancing maintainability.
- Conducted extensive **regression** testing with **Jest and React Testing Library** to ensure stable behavior across upgraded components.

Projects

NetflixGPT *GitHub Repo* September 2025 – November 2025
