Results-driven **Business Analyst** with **7 years of IT experience**, including experience across **BFSI/Trade Finance and Supply Chain Management** domains. Specializing in **Requirements Elicitation, Agile Methodologies, Stakeholder Management, Process Improvement and UAT**, with proven expertise in translating business needs into functional requirements, BRD/FRD and scalable business solutions. Experienced in **Trade Finance, Letter of Credit (LC) workflows, compliance processes, Supply Chain Operations, Order Management and Inventory Management**. Proficient in **SQL, Databricks, Data Visualization and Business Analytics**, with strong experience collaborating with **Business Stakeholders, Product Owners, Developers and QA teams** to deliver effective solutions and drive successful project outcomes.

SKILLS

- **Requirements & Analysis:** Requirements Elicitation, BRD/FRD, User Stories, Use Cases, Requirements Validation
- **Delivery:** SDLC, Agile & Waterfall, Sprint Planning, Backlog Grooming, Scrum Ceremonies, UAT, Project Management
- **AI Tools:** AmazonQ, Kiro, Prompt Engineering, GenAI, Agentic AI
- **Tools:** Jira, Confluence, Azure DevOps, SQL, Power BI, Databricks, Tableau, Visio, Lucidchart, Balsamiq, Axure, Microsoft Office (Excel, Word, PowerPoint), Microsoft Teams Planner
- **Collaboration:** Stakeholder Management, Cross-Team Collaboration, Business Solutions Development

PROFESSIONAL EXPERIENCE

CAPGEMINI TECHNOLOGY

Pune, India

Associate Business Analyst 02/2023 to 10/2026

Client – Leading Global Bank | Project – Trade Finance Transformation (BFSI)

• Managed end-to-end **Business Analysis** activities across the **SDLC**, translating Trade Finance business and operations requirements into functional workflows and scalable digital solutions using Agile and Waterfall methodologies.

• Performed **Requirements Elicitation** through stakeholder interviews, workshops, document analysis and process walkthroughs; authored **BRDs, FRDs, User Stories, Use Cases, Business Rules** and Acceptance Criteria.

• Analyzed the **Letter of Credit (LC) lifecycle** covering application, issuance, advising, document presentation, document examination, discrepancy handling, compliance review, payment/acceptance and closure.

• Leveraged **Databricks and SQL** for data exploration, transformation and validation, supporting data quality checks, reconciliation and analysis of Trade Finance transaction data.

• Mapped **Trade Finance workflows** and As-Is/To-Be processes using BPMN and swim-lane diagrams; identified manual touchpoints, operational bottlenecks and opportunities for workflow automation and process improvement.

• Defined requirements for **document validation, discrepancy management, exception queues, approval workflows, maker-checker controls, audit trails** and transaction-status tracking.

• Collaborated with Business Operations, Product Owners, Developers, QA and Compliance teams on integrations involving **SWIFT messaging, KYC/AML, sanctions screening, document management, core banking, accounting and settlement**.

• Supported **UAT** by preparing test scenarios, validating business rules, executing requirement traceability and coordinating defect resolution, business sign-off and Go-Live activities.

• Performed **SQL-based data validation and reconciliation** across transaction records and downstream systems; analyzed operational KPIs, exception volumes and reconciliation breaks to support data-driven decisions.

• Directed adoption of **GenAI and Agentic AI** solutions to automate Jenkins-based sanity and functional test execution, improving SDLC efficiency and reducing manual effort.

360 DEGREE

Kolhapur , India

Business Analyst 11/2019 to 02/2023

Client- Prozo | Supply Chain Planning & Order Management

• Worked as a **Business Analyst** on Supply Chain Management initiatives, partnering with business and technology teams to analyse requirements, define functional solutions and support successful delivery.

• Analysed business requirements and translated them into **Functional Specifications, Business Rules and Acceptance Criteria**, ensuring alignment between business needs and system capabilities.

• Conducted **Impact Analysis and Feasibility Analysis** for business changes, assessing downstream effects across procurement, inventory, order management and reporting processes.

• Supported **Requirements Validation** by reviewing functional requirements against business scenarios, identifying gaps, ambiguities and dependencies before development.

• Managed **Change Requests** by analysing proposed changes, documenting business impacts, coordinating stakeholder inputs and maintaining requirement baselines.

• Supported **Data Analysis using SQL** to investigate business scenarios, validate transactional data and identify inconsistencies across supply chain-related systems and reports.

• Assisted in **User Story Refinement and Backlog Prioritization**, working with Product Owners and technical teams to clarify requirements, dependencies and acceptance conditions.

• Facilitated **Requirement Walkthroughs** with Development and QA teams, resolving functional queries and ensuring a common understanding of business requirements.

• Supported **UAT and Release Activities** by validating test scenarios against business requirements, tracking defects, coordinating clarifications and supporting business sign-off.

• Performed **Root Cause Analysis** for production issues by analysing functional behaviour, data conditions and business rules, and worked with technical teams to identify appropriate resolutions.

• Maintained **Process Documentation, Data Mapping Documents, Decision Logs and Knowledge Transfer Material**, supporting requirement governance and effective communication across business and technology teams.

EDUCATION

M.B.A.: BUSINESS ANALYTICS Expected in 02/2027

Dr. D. Y. Patil University, Pune

Pursuing

B.E.: MECHANICAL 06/2019

University of Mumbai, Navi Mumbai

ACCOMPLISHMENTS
