PRASAD KAMBLE

QA Automation Engineer | SDET | Playwright (Python) | Selenium | API Automation

Gurugram, Haryana | +91-9689259246 | prasadkamble9246@gmail.com | linkedin.com/in/prasad-kamble9246 | https://github.com/Prasad9246

PROFESSIONAL SUMMARY

QA Automation Engineer and SDET with 3+ years of software testing experience including 2.5+ years in test automation across Casino Gaming and E-commerce domains. Expert in building scalable Playwright (Python) frameworks with Pytest and Page Object Model (POM), plus Selenium WebDriver, Cypress, REST API automation, SQL/database validation, Kafka event validation, and log analysis. Skilled in CI/CD (Jenkins, GitHub Actions), Microsoft Teams/Power Automate notifications, email alerts, Agile/Scrum, and full SDLC/STLC. Reduced regression cycle time by 60%+ across 500+ automated tests on a live financial-transaction gaming platform.

TECHNICAL SKILLS

Test Automation: Playwright (Python), Selenium WebDriver, Cypress, Pytest, TestNG, Page Object Model (POM), Data-Driven Testing, BDD/Cucumber, Custom Fixtures, E2E Testing, Cross-Browser Testing, Parallel Execution
Programming: Python, Object-Oriented Programming (OOP), Java (Basic), JSON, XPath, CSS Selectors
API & Database: REST API Testing/Automation, API Chaining, JSON Schema Validation, Postman, Python Requests, Rest Assured (Basic), SQL, Kafka Event Validation, Log Validation
CI/CD & Tools: Jenkins, GitHub Actions, CI/CD Pipelines, Git, Docker (Basic), Allure Reporting, Microsoft Teams Notifications, Power Automate Webhooks, Email Alerts, Jira, Zephyr, Confluence
Testing & Process: Functional Testing, Regression Testing, Smoke Testing, Sanity Testing, Integration Testing, Negative Testing, Boundary Value Analysis (BVA), Equivalence Partitioning, Manual Testing, SDLC, STLC, Defect Life Cycle, Agile, Scrum, Root Cause Analysis (RCA)
AI-Assisted QA: Cursor AI, GitHub Copilot, Claude AI, LLM-Based Test Case Generation, Prompt Engineering

PROFESSIONAL EXPERIENCE

Senior Consultant - QA Automation / SDET | Chiacon Consulting, Gurugram | Nov 2023 - Present
Live Casino Table System (real-money gameplay, wallet and payout engine). Promoted twice: Associate to Consultant to Senior Consultant.

- Architected a scalable Playwright (Python) automation framework from scratch using Page Object Model (POM), custom Pytest fixtures, reusable utilities, and parallel execution; adopted as the standard suite for a 5-member QA team.
- Automated 500+ end-to-end scenarios including bet placement, gameplay, win/loss and payout validation, game-state transitions, and multi-player synchronization, raising regression automation coverage to approximately 70%.
- Built CI/CD pipelines in Jenkins and GitHub Actions with Allure reporting, reducing regression cycle time by 60%+ and enabling nightly automated smoke and sanity runs; also designed Jenkins post-build Microsoft Teams (Power Automate) and HTML email alerts with Allure/console links for faster stakeholder visibility and failure triage.
- Developed REST API validation suites using Python Requests and Pytest for wallet/balance updates, bet settlement, and backend transaction verification, catching 30+ high-severity defects before release.
- Validated event-driven financial flows via Kafka event validation, SQL database checks, and log validation, ensuring end-to-end transaction accuracy across microservices.
- Implemented advanced Playwright features including locator strategies, auto-waiting, Trace Viewer, and network interception, cutting flaky tests by approximately 40%; performed PR reviews and mentored 2 junior QAs on POM standards.

Freelance QA Engineer - Manual Testing | E-commerce and Enterprise Web Applications | Mar 2023 - Oct 2023

- Performed functional, regression, smoke, and sanity testing across e-commerce and enterprise web modules including product catalog, search/filters, cart, checkout, payment, and order management, covering 300+ test cases.
- Designed detailed test cases, logged 150+ defects in Jira with clear reproduction steps, tracked issues to closure, and collaborated in Agile/Scrum ceremonies to meet sprint delivery goals.

CERTIFICATIONS

- Software Testing - Manual and Automation | Cyber Success | Aug 2022 - Feb 2023
- REST Assured (Java), Docker, Cucumber, Jenkins | Udemy | 2023

EDUCATION

Master of Science - Physics | Shivaji University, Kolhapur | Dec 2020 - Aug 2022
Bachelor of Science - Physics | Shivaji University, Kolhapur | Aug 2017 - Dec 2020

AWARDS AND RECOGNITION

Employee of the Year, Business Excellence Award, and Spot Award - Chiacon Consulting
