Pallavi Petare

Automation Tester

E-mail : pallavipetare01@gmail.com

Contact no : 9022537480

SUMMARY

- *Dedicated and detail-oriented QA Automation Engineer with 3.1 years of experience in automating web applications.*
- *Proficient in building robust and scalable automation frameworks for web-based applications.*
- *Strong expertise in black-box and white-box testing, integration testing, database testing, and CI/CD automation*
- *Hands-on experience in Java, Selenium, TestNG, Cucumber, Maven, Git/GitHub, Jenkins, SQL, Postman, and Jira.*
- *Proven track record of delivering high-quality solutions within Agile teams, contributing to end-to-end software development lifecycle (SDLC).*
- *Passionate about continuous learning, process improvement, and innovation in quality engineering.*

CORE COMPETENCY

Skill	***Hands-on Experience***	***Project/Company***	***Duration***
Test Automation	*Designing and maintaining BDD automation frameworks using Java, Selenium, Cucumber, TestNG, Maven*	*Vodafone Idea Limited + Nokia*	*2023 – Present*
CI/CD Automation	*Implementing Jenkins pipelines, integrating test suites for continuous integration & delivery*	*Vodafone Idea Limited + Nokia*	*2023 – Present*
API & Database Testing	*API testing using Postman, SQL queries for backend validation (Oracle/MySQL), testing stored procedures, triggers, and transactions*	*Vodafone Idea Limited*	*2023 – Present*
Agile Methodology	*Participating in Agile ceremonies, collaborating with cross-functional teams, defect tracking in Jira*	*Vodafone Idea Limited + Nokia*	*2023 – Present*

Skills.

- *Java*
- *Selenium WebDriver*
- *TestNG*
- *Cucumber (BDD Framework)*
- *Maven*
- *Jenkins (CI/CD)*
- *Git / GitHub*
- *Postman (API Testing)*
- *SQL (Oracle, MySQL)*
- *Database Testing (Joins)*
- *Agile Scrum Methodology*
- *Jira (Defect Tracking & Agile Board)*
- *Black-box & White-box Testing*
- *Functional, Regression & Integration Testing*
- *UI & Database Synchronization Validation*
- *Strong Problem-Solving Skills*
- *Attention to Detail*
- *Team Collaboration*

PROJECT EXPERIENCE: Most recent

Automation Tester - **Nokia (2025– Present)**	***Retail Banking (Digital Banking- Mobile & Internet banking platforms) Module .*** ➢ Developed and maintained BDD automation frameworks using Java, Selenium, Cucumber, TestNG, and Maven. ➢ Designed CI/CD pipelines in Jenkins to automate regression and integration test execution. ➢ Performed functional, regression, and integration testing for multiple modules.

	➢ Conducted API testing using Postman and validated request/response payloads. ➢ Wrote complex SQL queries (joins, nested queries, subqueries) to validate backend data against UI transactions. ➢ Participated in Agile ceremonies (daily standups, sprint planning, sprint reviews, retrospectives) ➢ Used Jira for defect tracking, test execution tracking, and sprint board management ➢ Collaborated with developers, BAs, and product owners to ensure timely defect resolution and high-quality delivery.
Graduate Engineer Trainee **Vodafone Idea Limited** **(2023-2024)**	➢ Contributed to Selenium WebDriver automation scripts using Java for functional and regression testing. ➢ Executed test cases and validated application functionality across different modules. ➢ Performed backend data validation using SQL queries to verify application data. ➢ Logged, tracked, and verified defects using Jira throughout the defect life cycle. ➢ Worked closely with senior QA engineers and developers to validate bug fixes and application changes. ➢ Participated in Agile Scrum ceremonies, including daily stand-ups, sprint planning, and retrospectives. ➢ Supported User Acceptance Testing (UAT) and regression testing before production releases.
Education	B.E in Electronics & Communication from Pune University completed in 2023 . SSC from State Board completed in 2017 . HSC from State Board completed in 2019 .
