RAJESHWAR KAMBLE

JUNIOR QUALITY ANALYST

+917040543042 | rajeshwar95kamble@gmail.com | Pune, India | LinkedIn: rajeshwar-kamble-548423257

CAREER SUMMARY

Quality Analyst with 3+ years of experience in Manual and Automation Testing. Proficient in Functional, Regression, Smoke, Sanity, Integration, API, and Cross-Browser Testing using Selenium WebDriver, Java, TestNG, SQL, Postman. Experienced in Agile methodologies, defect lifecycle management using JIRA, test case design, Automated regression testing, and version control practices using Git to ensure application stability and business requirement compliance. Currently expanding automation expertise with Python and Playwright, with a strong interest in contributing to scalable, real-time software testing within large, cross-functional project teams.

MANUAL TESTTING SKILLS

Good knowledge of SDLC and STLC, Test Case Design, Test Case Execution, Test Design Techniques, Test Planning, Test Scenarios, Functional Testing, Smoke Testing, Sanity Testing, Regression Testing, Ad-hoc Testing, API Testing, Defect Management, Severity & Priority Analysis, Bug Reporting, Agile & Scrum, RTM, Daily standup

AUTOMATION TESTING SKILLS

Selenium WebDriver, Java, Python, Playwright with Python, TestNG, Page Object Model, Object Repository, Locator Strategies, XPath, CSS Selector, ID, Name, Test Script Development, Regression Automation, TestNG Annotations, TestNG Groups, Prioritization, Parallel Test Execution, Extent Reports, CI/CD. Currently expanding knowledge in Generative AI concepts LLMs, AI Agents, MCP to explore AI-assisted testing and automation practices

TOOLS

JIRA, Postman, Eclipse, Apache Jmeter, GIT, GitHub, PyCharm, VSCode, Jenkins

PROFESSIONAL EXPERIENCE

JUNIOR QUALITY ANALYST | Nadsoft IT Solutions| Pune, IN — July 2024 – Sep 2026

- Led end-to-end **Manual and Automation testing** across multiple CRM modules such as Dashboard, Leads, Contacts, Messages, and Call Log, improving release stability and reducing post-release defects.
- Directed end-to-end validation of core business workflows (lead creation, customer conversion, pipeline progression, and campaign execution), ensuring business requirement compliance prior to each release.
- Built and maintained a Selenium WebDriver automation suite using Java, TestNG, and the Page Object Model (POM), significantly reducing manual regression testing effort each sprint.
- Implemented a structured regression, smoke, sanity, and cross-browser testing strategy, reducing production defect leakage across releases.
- Spearheaded integration testing across SMS, Email, VoIP, and third-party workflow systems, eliminating data-sync and integration defects before deployment.
- Established Role-Based Access Control (RBAC) testing protocols for Admin and Standard User roles, reducing access-related security defects.
- Streamlined defect tracking and resolution workflow in JIRA, shortening average defect resolution time through closer collaboration with developers.
- Drove release validation through the automated regression suite and production verification, reducing the pre-release testing cycle time.

QA TESTER| Game Cloud Technologies Pvt Ltd | Pune, IN — Jan 2024 – Jun 2024

- Implemented concepts of **SDLC** and **STLC.**
- Identified **Test scenarios** required for testing & Conducted **Functional Testing**, **Ad-hoc Testing**, **Regression Testing**, **System Testin**g & **Smoke testing.**
- Designed and executed comprehensive test cases based on business and functional requirements to ensure application quality.
- Identified, documented, and tracked **software defects**, assigning appropriate **severity** and **priority** while collaborating with developers for timely resolution.
- Participated in requirement analysis, test planning, and quality assurance activities following **Agile methodologies.**

SOFTWARE TESTER INTERN | Yess Infotech Pvt Ltd | Pune, IN — Apr 2023 – Oct 2023

- Assisted in designing and executing manual test cases for web applications based on functional and business requirements.
- Performed **System Integration Testing (SIT)** to identify defects and support software quality.
- Supported test automation activities by developing and maintaining basic automated test scripts using **Selenium WebDriver.**
- Documented test results, reported defects, identified areas for improvement, and provided recommendations to enhance software quality.

EDUCATION

MASTER'S DEGREE | MSc. Computer Science | Savitribai Phule Pune University — 2017 – 2019

BACHELOR'S DEGREE | BSc. Computer Science | Savitribai Phule Pune University — 2014 – 2017

CERTIFICATIONS

Software Testing Manual & Automation — Yess InfoTech Private Limited

PROJECTS

1. Deposyt CRM
   - Worked on Deposyt CRM, an enterprise CRM platform used to manage Leads, Customers, Campaigns, Messages, Call Logs, Calendar, Dashboard, and other business workflows.
   - Performed end-to-end Functional, Regression, Integration, Smoke, Sanity, API, and Cross-Browser Testing across multiple CRM modules, validating business workflows, user roles, and third-party integrations such as VoIP, SMS, and email.
   - Designed and executed Test Scenarios and Test Cases, performed database validation using SQL, managed defects through JIRA, and participated in Agile ceremonies, peer reviews, UAT, and production release activities.
   - Automated critical end-to-end and regression scenarios using Selenium WebDriver, Java, and TestNG, while validating UI behaviour, API responses, data consistency, and overall application stability.
2. Web Rewarded Ads – Web Application
   - Worked on a web-based **Rewarded Ads platform** that enables users to interact with advertisements and receive rewards upon completing defined ad-based activities.
   - Assisted in designing and executing test cases for functional workflows, ad display, reward allocation, user interactions, and related application functionality.
   - Performed Functional, Regression, and System Integration Testing; identified and tracked defects using JIRA and collaborated with developers for resolution and retesting.
   - Supported test automation activities using Selenium WebDriver and documented test results, ensuring application functionality and overall software quality.
3. Luminoex Online Shopping
   - Assisted in designing and executing test cases and test scripts; performed Functional, Regression, and System Integration Testing to identify defects and ensure software quality.
   - Collaborated with cross-functional teams to understand requirements, provide feedback on software functionality, and participate in team meetings, brainstorming sessions, and code reviews.
   - Logged and tracked defects using JIRA and worked closely with developers to verify fixes and resolve reported issues.
   - Supported test automation activities by developing and maintaining Selenium WebDriver scripts; documented test results, identified improvement areas, and provided recommendations to enhance software quality.
