ROHIT BARWAL

SOFTWARE DEVELOPER

rohitbarwal75@gmail.com | +91 7447575713 | LinkedIn | Pune, India

PROFILE

Skilled Software Developer with expertise in **Python, Django, FastAPI, React.js, SQL, AI, Data Engineering,** and **cloud platforms (AWS, GCP)**. Proficient in building scalable applications, optimizing databases, and implementing robust **CI/CD** pipelines with **DevOps** best practices for seamless deployment and monitoring in **Agile** environments. Known for strong problem-solving, clear **communication**, and **teamwork**, with the ability to collaborate effectively across management, technical teams, and end users to deliver impactful, business-driven results.

PROFESSIONAL EXPERIENCE

SOFTWARE DEVELOPER

Involve ai | March 2025 – Present

- Developed new **backend APIs** (RESTful APIs) and optimized existing ones by enhancing performance, architecture, response structure, and error handling, resulting in up to **2x faster and more reliable responses**.
- Revamped **backend microservices architecture** (FastAPI, MongoDB, AWS) to improve scalability, resilience, and maintainability, delivering higher performance with enhanced error handling and streamlined bug resolution.
- Built and integrated **frontend components (React.js)**, implementing APIs and ensuring seamless user interaction with backend services.
- Created and deployed **AWS Lambda** for LinkedIn Webhook processing; built the **AWS CDK stack** for automated deployment via **CloudFormation**, and developed the **CI/CD pipeline** to streamline Lambda deployments.
- Designed and implemented **ETL pipelines** using AWS Glue, S3, and MongoDB to ingest and transform provider data at regular intervals, ensuring consistent, high-quality data onboarding.
- Enhanced **AI-driven email draft generation** by optimizing prompt, producing natural, multi-language, and high-quality outputs tailored for outreach automation.
- Built **Agentic** features with **OpenAI APIs** to expand the chatbot's role in language translation, sales playbooks, and ad content generation.
- Debugged and resolved complex issues across backend (FastAPI, MongoDB) and frontend (React.js), leveraging **AWS CloudWatch log tracing** and hands-on API testing to improve platform stability and reliability.
- Collaborated in **Agile sprints**, actively contributing to feature development, peer mentoring, and code reviews, ensuring timely delivery and maintaining high standards of code quality.

Tech Stack: Python, FastAPI, MongoDB, AWS (Cloud Formation, CloudWatch, Lambda, S3, Glue), React.js, OpenAI API, RESTful APIs, ETL pipelines, Performance Optimization, API Debugging, Agile/Scrum, Cross-team Collaboration

SOFTWARE DEVELOPER
ETHX Softcon Pvt Ltd | June 2023 - March 2025

- Developed and deployed end-to-end software solutions for platforms including ME360 and MFG Portal, leveraging Django, React.js, PostgreSQL and GCP (Google Cloud Platform)
- Implemented robust role-based access control systems, ensuring secure data access and compliance across multi-tenant applications.
- Optimized relational database schemas and queries, enhancing software efficiency, maintainability, and data integrity.
- Integrated external systems using Oracle Fusion APIs, enabling seamless synchronization and data consistency across applications.
- Managed deployments on GCP App Engine, ensuring high availability, reliability, and performance of software applications.
- Led a critical project, taking full ownership of deliverables, and mentored a fresher through hands-on guidance and knowledge sharing, ensuring project success and team growth.
- Followed Agile methodology across project lifecycles, working in sprints and participating in regular planning and review sessions to ensure process transparency and adaptability.

Tech Stack: Python, Django, JavaScript, React.js, PostgreSQL, MySQL, GCP

EDUCATION

Bachelor of Computer Science,
Dr. Babasaheb Ambedkar Marathwada University, Chh Sambhajinagar

TECHNICAL SKILLS

Languages C Frameworks: Python, Django, FastAPI, SQL, JavaScript, React.js, HTML, CSS
Databases: PostgreSQL, MySQL, MongoDB
Cloud: Google Cloud Platform (GCP), Amazon Web Service (AWS)
Tools: Git, GitHub, Docker, CICD
Soft Skills: Problem Solving, Time Management, Team Collaboration, Communication
Other Skills: Software Architecture, REST APIs,

ACHIVEMENTS

ETHX Rookie Award, Sep 2023 – Recognized for exceptional early performance
