SAMPADA KASAR

QA Automation Engineer | Software Test Engineer
Pune, Maharashtra | +91-9689628469 | sampada.officialwork@gmail.com

PROFESSIONAL SUMMARY

QA Automation Engineer with 3 years of experience in **UI Automation, API Testing, Database Testing, Functional Testing, Regression Testing, and E2E Testing**, including domain experience in Ad-Tech / Programmatic Advertising (Supply Side Platform). Hands-on experience with **Playwright, Selenium WebDriver, Cypress, JavaScript, Java, Python, SQL, REST Assured, Postman, Pytest, and JMeter.** Experienced in building reusable automation frameworks using **Page Object Model (POM), TestNG, Pytest, BDD, and Cucumber**. Skilled in **CI/CD** automation with Jenkins, containerized testing with **Docker,** monitoring and analytics with **Grafana**, defect tracking with **JIRA**, and Agile/Scrum practices.

TECHNICAL SKILLS

- **Languages**: Java, JavaScript, Python, SQL
- **UI Automation**: Playwright, Selenium WebDriver, Cypress
- **API Testing**: REST Assured, Postman, Playwright API
- **Testing**: Functional, Regression, Integration, E2E, Smoke, Sanity, Manual
- **Performance Testing**: JMeter
- **Frameworks**: TestNG, Pytest, POM, BDD, Cucumber
- **Monitoring & Analytics**: Grafana
- **DevOps & Tools**: Git, GitHub, Jenkins, Docker, JIRA
- **Methodologies**: Agile/Scrum, SDLC, STLC
- **AI/QA**: GitHub Copilot, Playwright MCP, AI-Assisted Test Automation

PROFESSIONAL EXPERIENCE

Associate Software Engineer | Lemma Technologies
Aug 2023 - Dec 2025
Ad-Tech / Programmatic Advertising - worked across Sigma, Delta, Phi, and Integral, serving publisher and advertiser workflows.

- Engineered and maintained UI automation test suites using **Playwright with JavaScript, Selenium WebDriver, and Cypress**, implementing **Page Object Model** (POM) and reusable automation components.
- Implemented API automation and REST API test coverage using **Playwright API, REST Assured, Python, Pytest, and Postman**, validating HTTP status codes, request/response payloads, headers, and business logic.
- Expanded automated coverage for new features and regression scenarios with Playwright, minimizing repetitive manual testing and improving test execution efficiency.
- Built and enhanced Java-based automation solutions using **Selenium WebDriver and REST Assured with TestNG, Cucumber and BDD** for functional and regression validation.
- Planned and executed functional, regression, smoke, sanity, UI, API, and end-to-end testing based on business and functional requirements.
- Conducted **performance testing** using **JMeter,** creating load-test scenarios and analysing response time, throughput, concurrent users, and error rates.
- Performed database validation and test-data verification using **MySQL**, cross-checking application and API results against backend records.
- Integrated automated test execution with **Jenkins CI/CD**, supporting continuous testing and streamlined regression execution.
- Used **Grafana** to monitor and validate bid request, publisher request, and campaign performance data, tracking key metrics and identifying anomalies during testing.
- Collaborated with **Developers, Business Analysts,** and **QA teams** in **Agile/Scrum** environments for requirement analysis, test planning, automation development, defect resolution, and release validation.

Technical Intern | Lemma Technologies
Feb 2023 - July 2023

- Developed UI automation scripts using Selenium WebDriver and Cypress, gaining hands-on experience in web application test automation.
- Executed automated test scenarios and analysed test results to identify application issues.
