SHAMLI MAHAJAN *QA Engineer*

mahajanshamlit3@gmail.com
+91 9579149214
Pune, India

Technical Skills

- **Automation Testing:** Selenium WebDriver, TestNG
- **Testing Types:** Functional, Regression, Smoke, Sanity, Integration, System, UAT, End-to-End
- **API Testing:** Postman
- **Programming Languages** Java, SQL.
- **Test Management & Defect Tracking** JIRA, MantisBT
- **CI/CD Tools** Jenkins, Git.
- **Cross-Platform Testing:** Web, Android, iOS, BrowserStack
- **Frameworks** Agile (Scrum), SDLC, STLC

Certification

- Sabedor Software India (SSI) - Manual Testing.
- The Testing Academy Automation Testing (Selenium)/Java

Education

M.SC Computer Science
M.S.G Arts, Science and Commerce College
2020

Summary

Detail-oriented QA Engineer with 4 years of experience in web and mobile application testing. Proficient in functional, regression, API, and performance testing, with hands-on experience in Selenium automation and Postman. Strong knowledge of SDLC, STLC, and Agile practices, with a focus on delivering high-quality, reliable software through effective testing strategies.

Domain Expertise

- **Job Portal Platforms** – End-to-end testing of workflows including user registration, profile management, job posting, job search, and application tracking across web and mobile platforms.
- **Ticket Booking & Event Management Systems** – Validated event creation, ticket purchasing, ticket resale, payment workflows, and QR/Scanner-based ticket validation for web and mobile applications.
- **Retail Price Monitoring & Complaint Management Systems** – Tested price monitoring, complaint tracking, and issue resolution workflows ensuring accurate data processing and faster complaint resolution.
- **Cross-Platform Application Testing** – Experience validating functionality across **Web, Android, and iOS platforms** using BrowserStack and real devices.
- **API & Backend Validation** – Tested REST APIs using Postman to verify request/response data, business logic, and backend integrations.
- **Database Validation** – Used SQL queries to verify backend data integrity and validate application workflows.
- **End-to-End Business Workflow Testing** – Validated complete user journeys including authentication, transaction processing, and system integrations.

Professional Experience

QA Analyst
EncureIT Systems Pvt. Ltd.
03/2022 – Present | Pune, Maharashtra

- Performed **end-to-end testing** of web and mobile applications to ensure product meets business requirements
- Designed and executed **test cases, test scenarios, and test plans** based on functional and non-functional requirements
- Conducted **functional, regression, GUI, integration, and end-to-end testing**
- Executed **API testing using Postman** and validated backend data using SQL queries
- Gained exposure to **performance testing (load, stress, endurance)** and analyzed system behavior under different conditions
- Identified, logged, and tracked defects using **JIRA**, ensuring timely resolution
- Collaborated with development and cross-functional teams for **issue troubleshooting and root cause analysis**
- Coordinated testing activities with developers to ensure **smooth and timely releases**
- Prepared and shared **daily and weekly status reports** with stakeholders
- Worked in **Agile (Scrum) environment** with strong understanding of **SDLC and STLC**
