SUMMARY

Experienced full-stack developer with a strong background in the MERN stack, mobile app development, and AI-powered solutions. Proficient in building scalable web and mobile applications, CRM systems, and social platforms using Node.js and React Native. Skilled in developing RAG-based chatbots with Python, FastAPI, LangChain, and OpenAI. Adept at cloud deployment, API integration, and collaborating with cross-functional teams to deliver impactful solutions.

WORK EXPERIENCE

SDE 1 – Onelab Ventures Private Limited, Pune. Nov 2024 – Present

Contributed to innovative product development involving social and AI-driven applications, playing an essential role in both backend and mobile platform development.

- **Social & Community Projects**: Developed scalable backend services and APIs for a social connection app using Node.js and Express.js, and built cross-platform mobile applications with React Native for both iOS and Android platforms.
- **AI-Powered Applications**: Worked on a RAG-based contextual chat application using Python, integrating LangChain, OpenAI, transformers, and FastAPI to deliver intelligent conversational capabilities.
- **Additional Technical Proficiencies**: Gained practical experience in Python-based AI integration, FastAPI for efficient backend APIs, and enhanced Java skills by exploring Core Java and Spring Web frameworks**.**

Full Stack Developer (MERN) - Techisor Private Limited, Bengaluru *Aug 2023 – Nov 2024*

As a key member of the product development team, played a vital role in managing the server and cloud infrastructure, front-end, back-end, and database systems. Was actively involved in new feature development and contributed to strategic decision-making processes.

- **Full-Stack Development**: Handled both front-end and back-end development, utilizing technologies such as:
  - HTML, CSS, TypeScript, JavaScript, React, Next.js, Bootstrap, Redux, React Native, Node.js, Express.js, TypeScript, MongoDB.
- **Cloud Infrastructure**: Managed deployments using Digital Ocean VPS, Google Cloud, and Git/GitHub for version control.
- **Major Project**: Led the development of a comprehensive CRM Web Application ecosystem, including:
  - CRM platform with marketplace integration.
  - Marketing-focused websites and landing pages.
  - Android and iOS CRM applications.
- **Client Solutions**: Delivered tailored solutions such as websites, dashboards, e-KYC portals, and payment gateway integrations for clients.
- **Team Leadership**: Trained new employees and contributed to a collaborative and innovative work environment.

Full Stack Developer (MERN) - Togglebytes Technologies, Mumbai *Dec 2022 - Jul 2023*

In this role, focused on delivering tailored services to clients, primarily developing websites and dashboards using the MERN stack as well as PHP Laravel and WordPress.

- **Client Solutions**: Developed and maintained websites and dashboards for various clients across different industries using MongoDB, Express.js, React, Node.js, Laravel, WordPress.
- **Front-End Development**: Created responsive and user-friendly interfaces using front-end technologies such as HTML, CSS, JavaScript, and React.
- **Back-End Development**: Implemented robust back-end systems with Node.js and Laravel, ensuring secure and scalable server-side architecture.
- **WordPress Customization**: Delivered customized WordPress solutions for clients seeking content management capabilities.
- **Project Management**: Worked closely with clients to understand their needs and translated those requirements into high-quality, scalable web solutions.
- **Collaboration**: Partnered with design and development teams to deliver comprehensive digital solutions on time and within budget.

EDUCATION

Certificate Course - Full-Stack Web Development *Dec 2021 - Aug 2022*

- *Masai School, Bengaluru Karnataka.*
