Professional Summary

Software Quality Analyst with 3 years of experience in Manual, Automation, and API Testing of scalable web applications. Strong hands-on experience with Selenium WebDriver (Java) and Playwright (JavaScript) for UI automation, along with API testing using Postman. Experienced in CI/CD pipelines and Git-based version control to ensure faster and reliable releases in Agile environments.

Core Competencies & Skills

Testing Tools & Platforms:
Selenium WebDriver (Java), Postman, Playwright (JavaScript), Jira
Programming & Scripting:
Java, SQL, HTML, CSS, JavaScript
Automation Frameworks:
TestNG, BDD (Cucumber), Page Object Model (POM), Data-Driven Framework
Databases:
MySQL
Methodologies:
Agile (Scrum/Kanban), Waterfall, SDLC, STLC
CI/CD & Version Control:
Git, CI/CD pipelines

Professional Experience

QA Engineer (Manual + Automation + API Testing)

Sampatanand Tech Pvt Ltd (Buktec), Pune | May 2023 – Present

- Designed and executed 300+ manual and automated test cases across multiple releases.
- Automated regression suites using Selenium WebDriver (Java) and Playwright (JavaScript), reducing regression effort by 35-40%.
- Performed API testing for 100+ REST endpoints using Postman.
- Developed and maintained automation scripts using Page Object Model (POM) to improve test maintainability and reusability.
- Executed database validation using MySQL to ensure data accuracy.
- Logged and tracked high-severity defects in Jira, improving defect resolution time by 20–25%.
- Collaborated closely with developers and product owners to analyze requirements, identify edge cases, and improve overall test coverage.

Project Experience

Project: Buktec (AI/ML-Powered Accounting Automation Platform)
Role: QA Engineer

- Performed end-to-end functional, UI, API, and regression testing on accounting modules.
- Improved test reliability using Playwright auto-waits and cross-browser testing.
- Coordinated with development and product teams to ensure timely bug resolution and high-quality releases.
- Supported UAT and production deployments with zero critical defects.

Education

Bachelor of Engineering
Sant Gadge Baba Amravati University, Maharashtra | 2018 – 2022

Certifications

- Certified Software Tester – Java by Kiran Academy, Pune
