Sivashanthi Chagalamarri

QA Automation Engineer | Manual & Automation Testing | JavaScript/TypeScript • Playwright • CI/CD • Git • API Testing
chagalamarrisivashanthi5@gmail.com | +91 7093850554

PROFESSIONAL SUMMARY

QA Automation Engineer with 3.10 years of experience delivering quality assurance across Banking and Financial Services applications within large, cross-functional delivery teams. Hands-on experience designing, developing, and maintaining automation test frameworks using Playwright with JavaScript/TypeScript, applying structured Page Object Model design and data-driven testing practices. Proficient in Functional, Regression, Smoke, Sanity, API (Postman), Database, End-to-End, and Cross-Browser Testing. Strong grounding in SDLC, STLC, Agile/Scrum methodology, defect management, and test planning, with an emphasis on traceability, documentation quality, and audit-ready reporting suited to regulated, client-facing environments. Experienced with Git, GitHub, Jenkins, and CI/CD pipelines. Skilled at translating business requirements into reusable, well-documented test assets and communicating quality risk clearly to technical and non-technical stakeholders alike.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, SQL, Java

Test Automation: Playwright (JavaScript & TypeScript), Page Object Model, Data-Driven Testing, BDD (Behave/Cucumber), API Testing (Requests, Postman, REST-Assured), TestComplete (exposure)

CI/CD & Tooling: GitHub Actions, Jenkins, Docker, GitLab CI, Allure Reports, TestRail, JIRA, Confluence

Domain Expertise: Banking & Financial Services (BFSI), Payment Systems, Web Applications

Consulting & Soft Skills: Technical leadership, Agile/Scrum, cross-functional collaboration, mentoring, stakeholder communication, client-facing reporting, automation strategy & roadmap planning

PROFESSIONAL EXPERIENCE

QA Automation Engineer | Capgemini *Dec 2022 – Present*

- Designed, developed, and maintained automation test scripts using Playwright with JavaScript/TypeScript for client delivery engagements.
- Executed functional, regression, smoke, sanity, integration, and end-to-end testing for web applications supporting business-critical workflows.
- Created and maintained test cases, test scenarios, and test data aligned to documented business and compliance requirements.
- Performed API testing using Postman and validated backend data integrity using SQL queries.
- Identified, logged, tracked, and verified defects using JIRA, ensuring timely resolution and clear audit trails.
- Participated in Agile/Scrum ceremonies including sprint planning, daily stand-ups, sprint reviews, and retrospectives.
- Partnered with developers, business analysts, and product owners to clarify requirements and improve product quality and client outcomes.
- Executed automation test suites as part of CI/CD pipelines using Jenkins.
- Used Git/GitHub for source code management and version control.
- Performed cross-browser and cross-platform testing to ensure application compatibility.
- Analyzed test results, prepared execution reports, and communicated quality metrics to stakeholders in client-ready formats.
- Contributed to improving automation framework stability, test coverage, and execution efficiency.

EDUCATION

MCA (Master of Computer Applications) | SKRIT, Vijayawada
CGPA: 8.0 | 2020 – 2022
