TEJAS BHARSAKE

Full Stack AI Engineer

Professional Summary

- AI Engineer & Full Stack Developer with 2 years of hands-on experience building scalable backend services, real-time APIs, RAG pipelines, and intelligent AI agent integrations. Skilled in async Python services, React-style JSX frontends, NoSQL databases, vector stores, prompt engineering, and secure model/API integrations with multi-cloud deployments.

Technical Skills

- **LLM & Generative AI:** LLM API integration, Prompt Engineering, RAG, embeddings, semantic search, AI tool-calling & agent workflows using LangChain, Cost/token/prompt/response observability, Gemini, Claude, and ReAct integration.
- **AI Agents & Orchestration:** ReAct pattern, workflow automation, tool-calling, Agent orchestration using LangChain.
- **Backend Engineering:** Async microservices using FastAPI, WebSockets, REST APIs, JWT Auth, API proxies, Nginx.
- **NoSQL & Vector Stores:** MongoDB, DynamoDB, Firestore equivalent exposure, Vector/RAG pipelines (FAISS, Pinecone, ChromaDB), Optimized indexing, query tuning.
- **Cloud & Container Deployment:** Docker, AWS, Google Cloud, Microsoft Azure, Reverse Proxy (Nginx), CI/CD (GitHub automation).
- **Frontend Development:** React.js19 JSX/JavaScript, Angular.js20, responsive UI/UX, REST API consumption.
- **NET Backend Stack:** ASP.NET Core Web API, ASP.NET MVC, Entity Framework Core, LINQ, Repository + Service Layer, SQL Server optimization.

Experience

AI Engineer

April 2023 – Present

AI Engineer, *Digitalyoushop AI*

- Designed and deployed intelligent generative AI agent workflows using async Python services and microservices.
- Integrated LLM APIs and built prompt-driven backend logic.
- Built RAG pipelines using cloud vector stores and hybrid embedding workflows.
- Developed FastAPI + WebSocket microservices for real-time AI-driven conversations.
- Secured API access using JWT with traffic proxying using Nginx reverse proxy.
- Implemented token usage, prompt/response logs, API cost analytics, and dashboards.
- Optimized AI pipeline accuracy by +28% and reduced latency by −22% through workflow improvements.
- Participated in Agile Scrum reviews and documented architecture decisions.

Software Developer Intern

Jan 2023 – Mar 2023 **Software Developer Intern**, *Digitalyoushop Technologies*

- Built backend modules using ASP.NET MVC and ASP.NET Core Web API.
- Developed REST API services for CRM, billing, and internal automation.
- Optimized backend performance using SQL indexing and stored procedures.
- Worked on XML API integrations and delivered WinForms internal tools.
- Collaborated in Agile sprint delivery cycles.

Projects

ANSH Vivah

- **Role:** AI + Backend Developer
- **Tech Stack:** ASP.NET Core Web API, Angular, Python RAG, JWT Auth, SQL Server
- **Contributions:**

- Engineered conversational orchestrations.
- Built AI-ready backend workflows and APIs (Admin/User).
- Implemented RBAC + JWT authentication and integrated secure payment module.
- Added LLM agent hooks for RAG query responses.

LLM Intelligent Agent Platform

- **Role:** AI Engineer
- **Tech Stack:** Python, FastAPI (async), Docker, Pinecone, ChromaDB, FAISS, WebSocket, JWT, Nginx, GitHub CI/CD
- **Contributions:**

- Designed LangChain ReAct orchestration.
- Built async micro-services (FastAPI + WebSockets).
- Managed vector stores and implemented token + cost monitoring.
- Secured API via JWT and deployed with GitHub workflows.

Logistics Management System

- **Role:** Backend Developer
- **Tech Stack:** .NET 7, SQL Server, Redis, Docker, Azure Pipelines exposure
- **Contributions:**

- Built backend services using clean layered architecture.
- Optimized SQL queries and added stored procedures.
- Integrated caching layer using Redis.
- Containerized using Docker and supported CI/CD deployments.

ANPR Pipeline

- **Role:** Computer Vision Developer
- **Tech Stack:** Python, OpenCV, MySQL
- **Contributions:**

- Developed image detection and segmentation.
- Stored structured metadata.
- Optimized pipeline for quicker inference.

Education

2020 – 2024 **B.E – Computer Science Engineering**, *Sant Gadge Baba Amravati University*, CGPA: 6.8
