QA Automation Engineer | 4.1 Years Experience | Selenium | API Testing | TestNG | JIRA | SQL

PROFESSIONAL SUMMARY

QA Automation Engineer with **4.1 years of comprehensive experience** in Software Testing including Manual Testing, Automation Testing, and API Testing. Experienced in designing and implementing robust Hybrid Automation Frameworks using Selenium WebDriver, TestNG, and Java. Strong hands-on experience in API testing using REST Assured, Swagger, and Postman, along with backend validation using SQL queries. Proficient in defect lifecycle management using JIRA, test execution reporting, and CI/CD integration using Jenkins and Maven. Expertise in Functional, Regression, Smoke, Sanity, Integration, System, Cross-Browser, and Mobile Testing. Proven ability to work in Agile Scrum environments, collaborate with cross-functional teams, and deliver high-quality software products within tight deadlines.

TECHNICAL SKILLS

Automation Tools	Selenium WebDriver, TestNG, JUnit, Appium, POM, Hybrid Framework, Data-Driven Testing
Programming Languages	Core Java, SQL, HTML, XML
API Testing	REST Assured, Postman, Swagger, API Chaining, Response Validation, JSON Parsing
CI/CD Tools	Jenkins, Maven, Git, GitHub, Azure DevOps
Defect Tracking Tools	JIRA, TRAC, Bugzilla
Testing Types	Functional, Regression, Smoke, Sanity, Integration, System, UAT, Cross-Browser, Mobile Testing

PROFESSIONAL EXPERIENCE

QA Engineer **Mar 2026 – Present**

Briminc Softech, Pune

- Analyzed business requirements and created detailed test scenarios and test cases for web-based enterprise applications.
- Performed end-to-end Manual Testing including Functional, Regression, Smoke, Sanity, Integration, and System Testing.
- Executed API testing using Swagger by validating request/response payloads, status codes, and business logic validations.
- Tracked, logged, and managed defects using JIRA and ensured proper defect lifecycle management.
- Participated actively in Agile ceremonies including sprint planning, daily stand-ups, sprint review, and retrospectives.
- Collaborated with developers and business analysts to ensure requirement understanding and defect resolution.
- Prepared detailed test execution reports and maintained testing documentation for audit and release purposes.

QA Automation Engineer **Nov 2024 – Mar 2026**

Techne AI Pvt Ltd, Pune

- Designed and implemented a scalable Hybrid Automation Framework using Selenium WebDriver and TestNG with Page Object Model (POM) architecture.
- Developed reusable automation components and utilities to reduce script redundancy and improve maintainability.
- Optimized test execution using parallel execution and thread-safe WebDriver implementation, reducing execution time by 55%.
- Integrated automation suite with Jenkins CI/CD pipelines for continuous testing and scheduled execution.
- Configured logging using Log4j for debugging and detailed test execution tracking.
- Customized Extent Reports with screenshots, logs, and execution summaries for better defect analysis.
- Executed more than 200+ automated regression test cases across multiple application modules with a 95%+ pass rate.
- Performed API validation using Postman and backend verification using SQL queries.

Technical Team Member **Apr 2022 – Oct 2024**

Algorhythms Consultants Pvt Ltd, Pune

- Developed Selenium WebDriver automation scripts using Java and TestNG framework for web applications.

- Automated more than 100 regression test cases to improve testing efficiency and reduce manual effort.
- Designed and maintained Page Object Model (POM) framework to improve code reusability and scalability.
- Performed database testing using SQL queries to validate backend data integrity and transactional consistency.
- Conducted cross-browser testing across Chrome, Firefox, Edge, and Safari browsers.
- Participated in Agile Scrum ceremonies including sprint planning, daily stand-ups, and sprint retrospectives.
- Prepared test cases, executed test scenarios, and documented defects in JIRA for tracking and resolution.

PROJECT EXPERIENCE

Microsoft Dynamics 365 (Finance and Operations)

- Developed and maintained 95+ automation test cases using Selenium WebDriver and TestNG.
- Validated REST APIs using Postman and ensured data integrity across services.
- Performed system, integration, and regression testing for enterprise modules.
- Identified, logged, and tracked 30+ critical defects prior to production release.

ISLIM & IOPAC – Library Management System

- Executed functional and regression testing across multiple modules including user management and transactions.
- Performed SQL-based backend validation to ensure data consistency between UI and database.
- Conducted mobile application testing on Android and iOS platforms.
- Achieved 95%+ test coverage for critical business workflows.

Enterprise Web Applications

- Performed manual testing and API validation using Swagger and Postman tools.
- Managed defect lifecycle using JIRA and ensured timely resolution.
- Validated backend data consistency and application workflows.

EDUCATION

Master of Computer Application (MCA) – Savitribai Phule Pune University (2018)

Bachelor of Computer Science – Dr. Babasaheb Ambedkar Marathwada University (2015)

CERTIFICATION

Software Testing Certification – Cyber Success, Pune (2019)

- Manual Testing Concepts
- Automation Testing (Selenium)
- Test Case Design & Execution
- Defect Management & Reporting

CORE COMPETENCIES

Selenium WebDriver • TestNG • REST Assured • Swagger • Postman • JIRA • SQL • Jenkins • Maven • Git • API Testing • Automation Framework Design • Agile Scrum • Test Planning • Defect Lifecycle Management • Cross-Browser Testing • Mobile Testing

DECLARATION

I hereby declare that all the information provided above is true and correct to the best of my knowledge and belief. I am available for immediate joining and committed to delivering high-quality software testing and automation solutions.
