B.Tech. - Electrical and Electronics Engineering
LNCTS, Bhopal, Madhya Pradesh

Graduated: June '20

SUMMARY

Techno-Functional Consultant with hands-on experience in Microsoft Dynamics 365 Finance & Operations, actively contributing to multiple live projects for leading retail and manufacturing clients across the APAC and US regions. Proven expertise in workflow configuration, SSRS report development, form customizations, data migration, and user security management. Adept at bridging the gap between business needs and technical solutions by working closely with cross-functional teams.

Skilled in ITSM support, managing environment upgrades, and code deployments using tools like LCS, Azure DevOps, and X++. Known for delivering high-quality solutions within tight timelines and ensuring operational stability post-go-live. Strong communicator with a problem-solving mindset, committed to continuous improvement and client satisfaction.

EXPERIENCE

Infosys | Pune (Maharashtra)

May 2021 - Present

Three Projects | Retail Clients – APAC Region | [April 2024 - Present]

- Currently engaged in **three parallel projects** as a **Techno-Functional Consultant**, delivering **end-to-end support, enhancements, and consulting services** for leading retail businesses across the APAC region.
- Provide comprehensive **ITSM support**, including issue resolution, system performance optimization, and user enablement, ensuring smooth day-to-day operations.
- Collaborate within **cross-functional teams** to analyse business requirements, propose scalable solutions, and implement system enhancements aligned with evolving client goals.
- Develop and deploy customizations, reports, and workflow configurations across **Finance, SCM, Retail, and POS modules** using **X++, SSRS**, and D365 F&O development tools.
- Manage **code deployments and environment upgrades** across Dev, UAT, and Production tiers via **Azure DevOps pipelines**, **Lifecycle Services (LCS)**, and **Microsoft-hosted environments**, ensuring stability and compliance with Microsoft's release cadence.
- Work closely with stakeholders to **evaluate new version upgrades**, conduct impact assessments, and deliver transition plans that minimize downtime and support continuous improvement.

US-based Private Security & Risk Advisory Organization | [June 2023 - March 2024]

- **Configured** end-to-end business workflows in **Microsoft Dynamics 365 F&O**, aligning system functionality with the client's specialized operational and compliance needs in the security and risk advisory domain.
- **Developed and executed test scripts** to validate functional and integration scenarios, ensuring seamless system behavior and data accuracy across finance, procurement, and operations modules.
- **Handled complex data migration** using **Excel** for data preparation, transformation, and cleansing, followed by import/export through **Data Management Framework (DMF)** in D365.
- Utilized **X++** to support custom development and troubleshooting during the implementation phase, ensuring that business logic was correctly applied and system performance was optimized.
- Collaborated with functional consultants and client-side stakeholders to gather requirements, design solutions, and support User Acceptance Testing (UAT).
- Contributed to a smooth and timely **go-live**, ensuring minimal disruption and high user adoption.

US-based Pharmaceutical Company | [January - May 2023]

- **Designed and developed SSRS reports** tailored to business needs across finance, inventory, and procurement modules, providing real-time insights and facilitating data-driven decision-making.
- **Customized standard and custom forms** in D365 F&O to enhance user experience and capture critical business data relevant to pharmaceutical manufacturing and compliance workflows.
- Collaborated with business users and functional teams to gather reporting requirements, translate them into technical specifications, and deliver scalable solutions.
- Applied **X++ and D365 development best practices** to ensure stable performance, maintainability, and compliance with industry and organizational standards.
- Supported end-to-end report testing and deployment, including security setup, report menu item configuration, and performance optimization.
- Contributed to overall system enhancement efforts by delivering customizations that improved efficiency and user satisfaction.

Australia-based Beverage Manufacturing Company | [October 2021- December 2022]

- **Interacted directly with clients** to understand business issues, proposed **achievable and scalable solutions**, and assisted in **estimating effort and billing** for service requests and enhancements.
- **Managed user security** by configuring and maintaining **roles, duties, privileges**, and **menu items**, ensuring proper access control aligned with the organization's internal policies and compliance requirements.
- Supported and enhanced **custom SSRS reports and forms**, addressing evolving business needs across manufacturing, sales, and inventory functions.
- Collaborated with cross-functional teams to troubleshoot issues, deploy quick fixes, and deliver long-term resolutions while ensuring minimal disruption to business operations.
- Prioritized and resolved incidents and service requests through structured ticketing systems, consistently meeting **SLA targets**.
- Played a key role in maintaining system stability and end-user satisfaction by delivering prompt technical support and regular system enhancements.

Leadership & Extracurricular Activities

Head – Sports Club | *[April, 2023 - Present]*

- Lead the official **Sports Club** of the organization, driving employee engagement and well-being through regular sports initiatives.
- Successfully **organized and managed multiple sports events** ranging from **intra-office tournaments to inter-corporate and All-India level competitions (Infyusion, InfyTribe)**, including cricket, football, badminton, and athletics.
- Coordinated logistics, sponsorships, communication, and execution with participation exceeding 300+ employees across various departments and locations.
- Fostered a culture of team spirit and healthy competition, contributing to increased cross-functional collaboration and morale.
- Represent the company as **Football Team Captain** in inter-corporate leagues and regional tournaments.
- Led the team to multiple podiums finishes while mentoring new players and strategizing for performance improvement.

SKILLS

Technical Skills:

- Microsoft Dynamics 365 Finance & Operations (D365 F&O)
- X++ Programming
- SSRS Report Development
- Lifecycle Services (LCS)
- Azure DevOps (Pipelines, Boards, Repos)
- Data Migration Framework (DMF)
- Excel (Advanced, for data transformation & cleansing)
- Visual Studio (for D365 Development)

Functional Skills:

- Workflow Configuration
- Security Roles, Duties & Privileges
- Menu Items & Navigation Setup
- UAT Support & Bug Resolution
- Requirement Gathering & Functional Documentation
- ITSM Ticket Handling (Support & Enhancements)

Project & Deployment:

- Multi-project Management
- Code Deployment Across Environments (Dev, UAT, Prod)
- Environment Upgrade & Version Management
- Go-Live Planning & Post-Go-Live Support
- Cross-functional Collaboration

CERTIFICATIONS

- MB-920 Microsoft Certified Dynamics 365 Fundamentals (ERP)
- PL-900 Microsoft Certified: Power Platform Fundamentals
- AI- 900 Microsoft Certified: Azure AI Fundamentals
