Ghogare Tanuja Prakash

Full Stack Developer | React | Angular | Node.js | Python | 4 Years Experience
Email: tanujaghogare480@gmail.com
Mobile: +918308700939
Address: Nirmal Pimpri road Loni Tal. Rahata, Dist: Ahilyanagar

Professional Summary

Full Stack Developer with **4 years of experience** in designing, developing, and deploying **scalable, production-ready web applications**. Proficient in **React and Angular** for building responsive user interfaces, and **Node.js and Python** for backend development. Strong expertise in **RESTful API design**, **database optimization**, and **secure authentication using JWT**.
Experienced with **DevOps and CI/CD tools** including **Jenkins, SonarQube, and Postman**, ensuring high code quality and reliable deployments. Actively contribute to **GitHub projects**, follow **clean coding and best practices**, and collaborate effectively in **Agile/Scrum environments** to deliver high-quality software solutions. Passionate about continuous learning and building robust, real-world applications.

Profile at a glance

- Full Stack Developer with **4 years of professional experience** in designing, developing, and deploying **scalable, responsive web applications** across diverse domains.
- Strong proficiency in **frontend technologies** including **React, Angular, TypeScript, and JavaScript**, with a focus on **clean, maintainable code** and modern **UI/UX best practices**.
- Hands-on experience in **backend development** using **Node.js, Express.js, and Python**, with solid understanding of **server-side architecture and API development**.
- Skilled in **RESTful API design and integration**, along with database management using **MongoDB, MySQL, and PostgreSQL**.
- Experienced in **Git-based version control** and working within **Agile/Scrum development environments**.
- Proven ability to collaborate effectively with **cross-functional teams**, ensuring **on-time delivery, high code quality, and performance optimization**.
- Strong problem-solving skills with a commitment to **continuous learning**, adopting new technologies, and delivering **scalable, real-world solutions** that drive business outcomes.

Professional Experience

Aligned Automation (April 2022- January-2026)

Full Stack Developer

- Developed and maintained 6+ enterprise-grade web applications using React, Angular, Node.js, and Express.

- Built robust backend services with **comprehensive error handling, input validation**, and API documentation, tested using **Postman**.
- Utilized **Git, Jira, and Agile/Scrum methodologies** for sprint planning, daily stand-ups, task tracking, and team collaboration.
- Integrated **CI/CD pipelines using Jenkins**, ensuring automated builds, testing, and deployments across environments.
- Followed **DevOps best practices**, supporting application deployments, monitoring, and continuous improvement of delivery pipelines.
- Actively participated in **code reviews, sprint retrospectives, and production deployments**, ensuring high code quality and on-time delivery.
- Integrated secure authentication using JWT and implemented role-based authorization.
- Developed RESTful APIs for data exchange and implemented robust error handling and validation.
- Worked closely with UI/UX designers to deliver responsive, mobile-first user interfaces. • Participated in sprint planning, daily stand-ups, code reviews, and production deployments
- Actively participated in sprint planning, code reviews, and team collaboration, ensuring timely delivery and adherence to best practices.

Educational Qualification

Bachelor of Engineering (B.E.) – Artificial Intelligence & Data Science
Savitribai Phule Pune University
Diploma – Computer Engineering
Maharashtra State Board of Technical Education (MSBTE)

Certifications & Continuous Learning

- **Full Stack Web Development Bootcamp – Udemy**
- **SQL Bootcamp – Udemy**
- **JavaScript Algorithms and Data Structures – freeCodeCamp**
- **Python for Everybody – Coursera**
- **AWS Technical Essentials - AWS**

Technical Skills

- **Frontend:** React.js, Angular, JavaScript (ES6+), TypeScript, HTML5, CSS3, Bootstrap, Material UI, Tailwind CSS
- **Back-End:** Node.js, Express.js, Python (Flask, basic Django)
- **Databases:** MongoDB, MySQL, PostgreSQL
- **APIs & Security:** RESTful APIs, JWT Authentication, Role-Based Access Control, API Integration

- **Tools & Platforms:** Git, GitHub, GitLab, Postman, Jira, VS Code
- **DevOps & Code Quality:** Jenkins, SonarQube, DevOps fundamentals (build, deploy, monitoring concepts)
- **Cloud and Deployment:** AWS EC2, S3, Basic CI/CD knowledge
- **Practices:** Agile/Scrum, MVC Architecture, Unit Testing (Basics), Performance Optimization

Key Project

Inventory Management System

Tech Stack: React, TypeScript, Node.js, MongoDB, Bootstrap, DevOps

- Designed a complete inventory solution with role-based access control, live search, and automated stock alerts.
- Used **REST APIs** for CRUD operations and **MongoDB** for efficient data storage and retrieval.
- System reduced stock shortages by 40% and improved inventory tracking accuracy.

Task Tracking Dashboard

Tech Stack: Angular, JavaScript Node.js, PostgreSQL

- Developed a real-time task management dashboard with drag-and-drop functionality and activity logs, improving team coordination and delivery timelines.

Data Analysis Automation (Python)

Tech Stack: Python, Pandas, Flask

• Automated data collection, cleansing, and analysis using Python scripts and presented data insights via a web interface. • Reduced manual reporting time by 60%.

Achievements

DELL Best Performance of the Quarter Award – Recognized for outstanding performance, timely delivery of assigned tasks,high-quality code contribution, and strong collaboration within the team.

Personal Details

- **Date of Birth**: 31st July 2001
- **Marital Status**: Unmarried
- **Gender**: Female
- **Languages Known**: English, Hindi and Marathi
- **Hobbies and interest**: Learning new things, Travel.

Declaration

I hereby declare that the above information is true to the best of my knowledge and belief.
