Experience

Fxis AI **July 2024 - Present**
Full Stack Engineer *Ahmedabad, India*

- Built **BuJaa Beats** a music platform where users discover, purchase, and license music; integrated AI features including music generation from text prompts, track mastering, cover art creation, and multi-format video export; implemented a **"Make an Offer"** negotiation flow with automated license delivery on purchase.
- Engineered async media processing using **Celery** and **AWS Lambda** to handle concurrent AI generation jobs (music, images, video) at scale.
- Built Dashboard an internal tool where lawyers/users upload M&A contracts and instantly receive extracted clauses, red flags, and exact page references powered by AI; saves legal teams **15–20 hours** per review cycle.
- Developed internal licensing platform for client where sales teams manage customer licensing end-to-end DocuSign signing, OCR extraction, automated email campaigns, and daily **SAP RFC** sync reducing manual effort for **1,000+** customers from hours to minutes.
- Built a bulk rendering tool where users upload a CSV and get thousands of personalized PDFs and videos generated using **FastAPI** and **Celery**.

Techolution **April 2024 - July 2024**
Full Stack Engineer Intern *Hyderabad, India*

- Developed a purpose model dashboard for the RLEF project, including API creation and frontend integration.
- Handled large file storage in Google Cloud Storage and created user-friendly interfaces for text comparison.
- Created an AI platform interface with search, preview, and download functionalities for various document formats.

Avestan Technologies **Jan 2024 – March 2024**
Software Engineer *Nagpur, India*

- Developed CRM software using React and Node.js on AWS, increasing departmental efficiency by **30%** and sales closure rate by **20%**.
- Feature-rich CRM led to a **15%** increase in annual revenue and a **20%** improvement in lead conversion rates.

Amazon **January 2023 – June 2023**
Intern *Bengaluru, India*

- Boosted executive decision-making with interactive **AWS QuickSight** dashboards, saving leaders **5–6 hours/week** in data gathering and report generation.
- Spearheaded EC2 instance migration, optimizing performance and scalability; worked with Redshift, S3, Lambda, Athena, SageMaker, CloudWatch, IAM, Python, and SQL.

Projects

RealTime DrawingTool | *React, Next.js, Socket.io, Express.js, Redux* | **GitHub** | **Live Link**

- Real-time collaborative drawing canvas with undo/redo, dynamic eraser, and adaptable brush sizes.

ShopNow | *NodeJs, React, MongoDb, Express, Reduxjs* | **GitHub** | **Live Link** **January 2022**

- E-commerce platform with secure authentication, role-based access control, and an admin dashboard for product and order management.

Achievements

- Solved **500+ problems** on **LeetCode**.
- Achieved **rank 3** in Game-A-Thon by IEEE Bombay Region, competing against **100+ participants**.
- Top performer in NPTEL's Programming in Java course (77%) by IIT Kharagpur, **earned a Silver Medal**.

Technical Skills

Languages: C++, JavaScript, Python, HTML/CSS, SQL
Frameworks & Libraries: ReactJS, Next.js, Node.js, Express.js, FastAPI, GraphQL, Redux
Databases & Cloud: MongoDB, PostgreSQL, AWS (EC2, S3, Lambda, Redshift, SageMaker, QuickSight), GCS
Tools & Platforms: Celery, Docker, DocuSign, Socket.io, REST APIs

Education

Yeshwantrao Chavan College of Engineering **August 2019 - June 2023**
Bachelor of Engineering in Electronics and Telecommunication (CGPA of 7.99) *Maharashtra, India*
