Content| Brand | Marketing

Words are my strategy, aesthetics are my instinct. With 3+ years across B2B SaaS, D2C retail, and fashion in the Indian and US markets, I don't just write content—I build brand worlds. I've led end-to-end content from SEO blogs and emailers to campaigns, influencer scripts, and website copy, often as the only content owner. I understand brand positioning, e-commerce dynamics, and what makes a consumer stop scrolling. I think in visuals as much as words, collaborate with agencies, brief creatives, and show up on shoots. Whether the audience is a US fashion buyer or an Indian millennial mom, I adapt voice and message to convert.
