SUMMARY

Full Stack Developer with 3.4+ years of experience in designing, developing, and deploying scalable web applications using React.js, Next.js, Python, FastAPI, JavaScript, and SQL databases. Experienced in frontend development, backend API development, authentication systems, state management, database design, and third-party integrations. Strong expertise in building responsive user interfaces, RESTful services, healthcare and business applications, and optimizing application performance. Proficient in Agile development methodologies, Git version control, and end-to-end software development lifecycle.

WORK EXPERIENCE

Medtigo India Pvt Ltd, Pune, IN | Full Stack Developer
Apr 2025 – Present

- Developed and maintained scalable web applications using React.js, Next.js, Python, and FastAPI.
- Built reusable React.js components using Hooks, Context API, and modern JavaScript.
- Developed RESTful APIs using Python and FastAPI for frontend-backend communication.
- Implemented authentication, authorization, and role-based access workflows.
- Integrated third-party APIs and external healthcare services.
- Optimized application performance using lazy loading, memoization, and code splitting.
- Developed responsive UI screens ensuring cross-browser compatibility.
- Collaborated with QA, Product, and Business teams following Agile methodologies.
- Participated in code reviews, deployment activities, and production support.

Technologies: React.js, Next.js, Python, FastAPI, JavaScript, HTML5, CSS3, REST APIs, AWS, Git

Leotechnosoft, Pune, IN | Software Developer
Feb 2023 - Apr 2025

- Developed frontend modules using React.js for CRM, Healthcare, and Loan Management systems.
- Built reusable UI components and integrated REST APIs.
- Developed backend services and APIs using Python.
- Implemented JWT authentication and role-based access control.
- Designed and optimized MySQL database schemas and queries.
- Developed partner onboarding, lead management, and user management functionalities.
- Integrated third-party APIs including Maps and verification services.
- Participated in requirement analysis, development, testing, and deployment.
- Worked closely with cross-functional teams in Agile Scrum environments.

Technologies: React.js, Python, FastAPI, PHP, MySQL, REST APIs, JWT, Git

TECHNICAL SKILLS

Languages: Python, JavaScript (ES6+), PHP

Frontend: React.js, Next.js, Redux, Context API, React Hooks, HTML5, CSS3, Bootstrap

Backend: FastAPI, Flask, REST APIs, JWT Authentication

Databases: MySQL, MongoDB

Tools: Git, GitHub, Postman, AWS, VS Code

Concepts: OOPs, Data Structures, SDLC, Agile Scrum, Performance Optimization, Responsive Design

PROJECTS

medtigo Orange

Description:
Developed a healthcare benefits management platform supporting user benefit access, approvals, and workflow management.

Responsibilities:

- Developed SSR-based applications using Next.js.
- Built reusable React.js components.
- Integrated FastAPI backend services.
- Implemented approval workflows and role-based access.
- Optimized application performance.

Tech Stack: React.js, Next.js, Python, FastAPI, REST APIs

Business Management Platform

Description:
Business management platform for partner onboarding, lead tracking, demo scheduling, and user management.

Responsibilities:

- Developed backend services using Python and FastAPI.
- Created REST APIs for lead management.
- Implemented role-based access control.
- Integrated frontend applications with backend services.

Tech Stack: Python, FastAPI, React.js, MySQL

Real-Time Chat Application

Description:
Real-time messaging platform supporting instant communication and message history.

Responsibilities:

- Developed frontend using React.js.
- Implemented WebSocket communication using FastAPI.
- Created backend APIs for user and chat management.
- Integrated MongoDB for persistent message storage.

Tech Stack: React.js, Python, FastAPI, MongoDB, WebSockets

Courses Platform

Description:
Medical certification platform for ACLS, BLS, and PALS courses.

Responsibilities:

- Developed responsive frontend using React.js.
- Consumed WordPress REST APIs.
- Created reusable UI components.
- Improved page load performance and scalability.

Tech Stack: React.js, WordPress, REST APIs

EDUCATION

Master of Computer Applications (MCA)

Chhatrapati Shahu Institute of Business Education and Research, Kolhapur

ACHIEVEMENTS

Star Performer Award – Leotechnosoft Pvt. Ltd.
