SUMMARY:

Detail-oriented and enthusiastic Software Engineer with a solid background in Full-Stack Development. I am skilled in Python, Django, DRF, React and REST APIs. I want to use my technical skills and problem-solving abilities to help with innovative projects and grow as a professional in an active organization.

TECHNICAL SKILLS :

- Programming Languages : Python, JavaScript (ES6+),
- Backend : Django, Flask, Django Rest Framework, REST API
- Front-End Technologies : React.js, Redux, Bootstrap, HTML, CSS
- Databases : SQLite, MySQL
- Version Control : Git, GitHub
- Tools : VS Code, PyCharm, Windows, Postman

PROFESSIONAL EXPERIENCE:

Accure Softech Pvt. Ltd., Pune

***Software Engineer (Python)* | Jan 2024 – Present**

Key Responsibilities:

- Develop and maintain full-stack applications using Python (Django) for the backend and React.js for the frontend.
- Build REST APIs and connect them with front-end applications.
- Implement responsive UI designs and make sure users have a smooth experience.
- Design database models and queries, and improve performance for large-scale applications.
- Debug, troubleshoot, and fix application issues to ensure high performance.
- Work with teams to gather requirements, test, and deploy.
- Deploy and manage applications on cloud services or servers.

Cravita Technologies India Private Limited, Pune.

***Internship (Python Developer)* | 6 Months**

Key Responsibilities:

- Assisted in developing backend modules using Python and Django.
- Worked on API testing, fixed bugs, and optimized code.
- Learned the basics of React and frontend integration during the internship.
- Contributed to project documentation and deployment processes.

TECHNICAL CERTIFICATION:

- Full Stack Python Certification
- Fortune Cloud Group of Technologies, Pune
- Overview: Acquired in-depth knowledge and hands-on experience in full-stack development using Python and Django. The course covered front-end technologies, back-end development, RESTful API integration, database management, and deployment practices.

ACCOMPLISHMENT :

Student Study Portal.

- Technologies : Python, Django, HTML, CSS, JavaScript, Bootstrap.
- Project Summary : The Student Study Portal is a comprehensive online platform designed to assist students in managing their academic activities and resources in one place. The portal is built using Django, a popular Python web framework, and provides a user-friendly interface for students to access various study tools and resources. The portal aims to improve student productivity, reduce stress, and enhance their overall learning experience.

EDUCATION:

- Bachelor of Engineering - Mechanical Engineering

  Dr. J. J. Magdum College of Engineering, Jaysingpur (Shivaji University)

  Aggregate: 70% | Aug 2017 – Oct 2021

- H.S.C (Science)

  S N Kadam Jr. College, Kadegaon (Maharashtra State Board)

  Percentage: 64.77% | Apr 2015 – Mar 2016

ACADEMIC PROJECTS:

- **Stop Valve Assembly Design [TE Project]**
  Language : CATIA.
  The purpose of the stop valve is to maintain pressure in an operating chamber. 3D models of parts and component assembly, and also a package of technical documentation, assembly drawing, bill of materials, draft drawings of parts were presented at the competition.

- **Development of Autonomous Grass Cutting Machine** [B.E]
  It is a solar powered autonomous grass cutting machine with insecticide sprayer. Machine is operated and controlled from a distance using a remote. To provide the facility to control the machine using Android-enabled cellphone.

DECLARATION:

I hereby declare that the information furnished above is true to the best of my knowledge.
