Professional Summary

Full Stack Developer with 2+ years of experience designing and building scalable web applications, with strong expertise in modern frontend technologies and solid backend development capabilities. Highly skilled in React.js, Next.js, TypeScript, Redux, Tailwind CSS, and Material-UI.
Proficient in backend development using Node.js (Express.js, NestJS) with hands-on experience in building RESTful APIs, implementing CRUD operations, and structuring scalable application architecture. Experienced in API integration, authentication flows, and efficient data handling.
Additionally skilled in Python using FastAPI and Django for backend development, with working knowledge of Pandas and NumPy for structured data processing.
Hands-on experience with performance optimization, Agile/Scrum methodologies, and CI/CD pipelines.

Technical Skills

- **Languages**: HTML, JavaScript, TypeScript, Python.
- **Frontend**: React.js, Next.js, Redux, Tailwind CSS, Material UI (MUI), shadcn/ui.
- **Backend**: Node.js (Express.js, NestJS), FastAPI, Django.
- **Databases**: MongoDB, PostgreSQL.
- **API & Validation**: RESTful APIs, CRUD Operations, API Integration, Zod Schema Validation.
- **Data Libraries**: Pandas, NumPy.
- **Tools & Platforms**: Git, GitHub, Bitbucket, Jira, Postman, CI/CD, Vercel, Render, Neon.
- **Concepts**: Responsive Design, Cross-Browser Compatibility, Performance Optimization.
- **Certifications**: Prompt Engineering Certification - UpGrad (2026) Advanced Prompt Engineering with ChatGPT.

Professional Experience

Broadstairs IT Solutions, Pune
Software Developer | Feb 2025 – Present
Software Developer Intern | Feb 2024 – Jan 2025

• Developed scalable and responsive web applications using React.js, Next.js, and TypeScript.
• Developed reusable and modular UI components using Tailwind CSS and shadcn/ui, enhancing code maintainability and consistency.
• Integrated RESTful APIs using Axios and handled dynamic data flow between frontend and backend systems.
• Worked with backend services using Node.js (Express.js, NestJS) to design RESTful APIs, implement CRUD operations, and structure scalable application architecture.
• Built and explored backend APIs using Python (FastAPI, Django) for handling business logic and data processing.
• Contributed to API validation and data handling using tools like Zod and structured request/response flows.
• Implemented unit testing using Jest and React Testing Library, improving code quality and reducing production issues.
• Collaborated in Agile/Scrum environments, using GitHub and Bitbucket for version control and code reviews.

Projects

Community Collaborative Application– (UmmahBook)

Tech Stack: Next.js, TypeScript, shadcn/ui, Tailwind CSS.

An app for community members to receive announcements, event updates, and prayer timings.

- Built a responsive Next.js + TypeScript web app enabling community members to discover and manage nearby Masjids with search and filter functionality.
- Implemented Login System, Dashboard, and modern UI using Tailwind CSS & shadcn/ui, enhancing user experience.
- Created reusable UI components with shadcn/ui, improving maintainability and reducing development effort.

- Implemented and maintained real-time location-based updates for seamless user interaction and data consistency.

Turf Management Application

Tech Stack: Next.js, TypeScript, Tailwind CSS, shadcn/ui, Python (FastAPI)
• Contributed to the development of a full-stack application for managing bookings, users, and scheduling.
• Built responsive UI using Next.js and developed RESTful APIs using FastAPI as part of backend development.
• Implemented CRUD operations and handled booking workflows, including availability and time-slot management.
• Collaborated across frontend and backend to ensure seamless data flow and application performance.

Memon ID – Social Community Portal

Tech Stack: React.js, CSS/SCSS, Redux, Axios, Material UI, Node.js (Express.js), MongoDB.

- Built responsive, user-friendly web interfaces with React.js, Redux, Axios, and Material UI, supporting 1,000+ active users.
- Resolved critical bugs through rigorous testing and collaboration, improving stability and user satisfaction.
- Designed and implemented a custom calendar component, enhancing performance and user experience.
- Validated API endpoints with Postman and tracked tasks in Jira to streamline development workflow.

Education

Bachelor of Business Administration (BBA)
DR Kakade College of B. Com, BBA, BBA(CA), Pimpalwandi | Pune, Maharashtra
